

## Issues and Events

### DIABETES CARE SYMPOSIUM 2023

This collection includes articles presented at the American Diabetes Association's 83rd Scientific Sessions on 23 June 2023 as part of *Diabetes Care* Symposium, "Social Determinants of Health: Impact on Diabetes Development and Care." Together, these articles synthesize and discuss available evidence relating social, political, and commercial determinants of health and the risk and outcomes of type 2 diabetes. The collection can be accessed at [diabetesjournals.org/collection/1803/Diabetes-Care-Symposium-2023](https://diabetesjournals.org/collection/1803/Diabetes-Care-Symposium-2023).

### LABORATORY ANALYSIS CONSENSUS STATEMENT

The American Diabetes Association and the American Association for Clinical Chemistry have jointly released an updated consensus statement regarding laboratory analysis in the diagnosis and management of diabetes. This new guidance is aimed at streamlining the diagnostic process, standardizing laboratory procedures, and ensuring patients receive the most comprehensive and accurate treatment and care. The updated guidance can be accessed at <https://doi.org/10.2337/dci23-0036>.

### "HANDS ON: TIPS TO IMPROVE DIABETES CARE" WEBINAR SERIES RETURNING FALL 2023

American Diabetes Association members will have the opportunity to attend monthly webinars on the second Tuesday of every month beginning in October 2023. Experts will present a variety of topics including diabetes technology, exercise physiology, behavioral medicine and psychology, and primary care. This webinar series is supported by funding from The Leona M. and Harry B. Helmsley Charitable Trust. For more information, please visit [professional.diabetes.org/content-page/professional-webinars](https://professional.diabetes.org/content-page/professional-webinars).

### SPECIAL PODCAST: THE IMPORTANCE OF NUTRIENT-DENSE DIETS

In a special two-episode series of *Diabetes Core Update*, the American Diabetes Association podcast for primary care

clinicians, Dr. Nikki Ford and expert guests sit down with Dr. Neil Skolnik to discuss the importance of a nutrient-dense diet for diabetes management and risk reduction. This special series is made possible by Fresh Avocados—Love One Today. For more information, please visit [diabetesjournals.org/journals/pages/nutrition\\_podcasts](https://diabetesjournals.org/journals/pages/nutrition_podcasts).

### THE LATEST DIABETES TECHNOLOGIES FOR HEALTH CARE PROVIDERS

The American Diabetes Association's "Making Diabetes Technology Work" free continuing education program is designed to help the diabetes care team on the front lines of primary care master the latest evidence-based recommendations for the implementation and management of cutting-edge diabetes technology. To explore the self-paced online modules, please visit [professionaleducation.diabetes.org/ProductInfo/MDTW2023](https://professionaleducation.diabetes.org/ProductInfo/MDTW2023).

### PROFESSIONAL BOOKS SITE

The American Diabetes Association's professional books library has extended to over 30 books for a more complete research discovery experience. Browse or search today by visiting our professional books website at [diabetesjournals.org/books](https://diabetesjournals.org/books).

### SUBMIT ARTWORK FOR THE COVER OF DIABETES CARE

If diabetes has had an impact on your life, whether you have diabetes or care for someone who has diabetes, please consider submitting your original artwork for publication on the cover of an issue of *Diabetes Care*. Artwork submission and selection are completely independent from manuscript submission and the peer review process—artwork sent for consideration on the cover is not required to be related to an article submitted to or published in the journal. *Diabetes Care* will consider images of artwork of any subject or medium. For more information, please visit [diabetesjournals.org/care/pages/submit\\_a\\_cover\\_image](https://diabetesjournals.org/care/pages/submit_a_cover_image).
