CORRIGENDUM

The lysosomal inhibitor, chloroquine, increases cell surface BMPR-II levels and restores BMP9 signalling in endothelial cells harbouring BMPR-II mutations

Benjamin J. Dunmore, Kylie M. Drake, Paul D. Upton, Mark R. Toshner, Micheala A. Aldred and Nicholas W. Morrell

It has been brought to our attention that the nomenclature of the mutations used in our recent paper are incorrect. In the main manuscript and the supplementary data the mutations are listed as R320X and R548X. These should be R321X and R584X.

We have now corrected our patient database and offer our sincere apologies for this mistake.
