Exome sequencing reveals mutation in GJA1 as a cause of keratoderma-hypotrichosis-leukonychia totalis syndrome

Huijun Wang, Xu Cao, Zhimiao Lin, Mingyang Lee, Xinying Jia, Yali Ren, Lanlan Dai, Liping Guan, Jianguo Zhang, Xuan Lin, Jie Zhang, Quan Chen, Cheng Feng, Eray Yihui Zhou, Jinghua Yin, Guiwen Xu and Yong Yang

The authors apologize for the errors made in the second part of the Result section. In all cases, the mutation should be c.23G>T rather than c.23G>A.
