

**Shaun Britton** is an academic director and design lecturer at Swinburne University. An experienced animator, character, and product designer, his interests include practical design research, game development, and interactive narrative. His professional work can be found at squidinc.com.

**Emily Candela** is a historian of design and science, whose practice spans writing, curating, and broadcasting. Emily produced the experimental radio show *Atomic Radio*; she is a former curator at the Victoria and Albert Museum; and she was awarded the Design History Society's 2021 Design Writing Prize. Emily is a senior tutor at the Royal College of Art, where she leads the Communication Design MRes Pathway.

**Marie-Julie Catoir-Brisson** is an associate professor in the Communication and Culture Department at Audencia Nantes. Her works rely on inter and transdisciplinarity between Design Sciences and information and Communication Sciences. Her research deals with social innovation by design, media and new media, and the uses of digital interfaces and connected objects, which she analyzes in a critical perspective, from semiotics and communication anthropology.

**Bo A. Christensen** is associate professor at Aalborg University, Denmark, in the Department of Communication and Psychology. His research lies in the intersection of communication, psychology, and philosophy, from which he has published articles, chapters, and books on different topics—e.g., fandom, computational thinking, and positioning theory—related to this intersection.

**Steven Conway** is a senior lecturer for Games & Interactivity at Swinburne University of Technology in Melbourne, Australia. Conway has presented on many aspects of digital game philosophy, aesthetics, and culture, and has published a variety of relative articles in journals and books.

**Eric de Visscher** is a curator and researcher working on sound in museums. Based in Paris, he has been Artistic Director of IRCAM/Centre Pompidou and Director of the Musée de la musique (Philharmonie de Paris). Currently, he is an advisor to the Musée du Quai Branly – Jacques Chirac (Paris) and he is the Andrew W. Mellon Visiting Professor at the Victoria and Albert Museum (London).

**Jorge Frascara** is Professor Emeritus, University of Alberta; Honorary Professor, Emily Carr University, Canada; Fellow, Society of Graphic Designers of Canada; former President, IcoGrada; author of eleven books and more than 90 articles; advisor of the Doctoral Program in Design Sciences, University of Venice; and editorial advisor of four professional journals.

**Annie Gentes** is Professor of Design, Information and Communication Sciences. She is the Dean of Research at CY School of Design, CY University Cergy-Paris, member of ETIS lab, UMR CNRS 8051. Gentes is Associate Editor of the Journal *Sciences du design*, PUF [French University Press]. Her research focuses on the materiality and generativity of design practices. She also studies the epistemology of design as an in-disciplinarity in practice.

**Aslı Günay** is an assistant professor in the Media and Visual Arts Department at Koc University. Having completed her PhD at METU on user experience (UX) with health technologies and her post-doctoral studies at the University of Cambridge on systems approach to healthcare design, her major research interests include design for well-being, UX with emerging technologies, UX research methods, and UX education.

**Juanjuan (June) He** is the cover designer for this issue of *Design Issues* (Volume 30, Number 2 Spring 2023). June is an assistant professor of Product Design at Westphal College of Media Arts and Design, Drexel University. She is a multifaceted designer, author, and artist with extensive industry experience. Her work focuses on aging and relevant design innovation, co-design practices with community partners, and expertise in eyewear-based products. June is the executive director of the Empathic CoDesign Lab at Drexel University, leading Aging + Design courses & research projects for cross-disciplinary Drexel students and older adults in Philadelphia's Asian communities.

**Liesbeth Huybrechts** is an associate professor who works in the areas of participatory design, design anthropology, and spatial transformation processes in the research group Arck, University of Hasselt. She has developed a research interest in the design for/with participatory exchanges between humans and the material/natural environment and the “politics” of designing these relations. Liesbeth explores this interest in several research and educational projects.

**Niek Kosten** is a designer, lecturer, and researcher at LUCA School of Arts in Genk, Belgium. His design research practice explores critically opening up political issues in society and focuses on topics such as civic engagement, social cohesion, displacement, and invasion ecology. His PhD examines the role of vernacular graphic design in these critical, contextual, and collaborative processes.

**Giulia Marcocchia** is a researcher at CAMI, Ca' Foscari, Italy, and an associate researcher at i3, Institut Interdisciplinaire de l'Innovation (UMR 9217)-CRG, Ecole Polytechnique, France, and a member of the steering committee of the Design Practice SIG, Design Society. She teaches Innovation Management, Design Management, and Strategy by Design. Her research focuses on the co-creation process toward the innovation of the ecosystem's emergence.

**Sedef Süner-Pla-Cerdà** is an assistant professor at TED University in Ankara. She obtained her PhD in Middle East Technical University, Department of Industrial Design, where she started her career in design teaching and research. Her academic interests focus on the intersection of design and user experience, such as interdisciplinary design thinking, design methods, user research, and integration of user-centered skills into design education.

**Gülşen Töre-Yargın** is an assistant professor at Middle East Technical University, Department of Industrial Design, and the director of METU/BILTIR-UTEST Product Usability Unit. After completing her PhD at METU, she conducted postdoctoral studies at the University of Cambridge. Her current research interests involve UX research methods and education and human-centered design of emerging technologies, particularly conversational agents, sensor-based technologies and smart products, and their user experiences.

**Thomas Watkin** is an associate professor in urban design and sociology at University of Nîmes, France. His research in urban and social innovation through design articulates the social sciences and environmental and urban sciences. His fieldwork in territorial transformations, housing, and work practices questions the transcultural construction of knowledge in his research employing mixed methods, ethnography, and participatory design.
