Which are the possible causes for the cardiac dysfunction in this patient presenting for the first time with decompensated heart failure and severe left ventricular dysfunction? How should we investigate him and which are the actual recommendations regarding his treatment?

In an interactive educational case report compiled for the European Society of Cardiology’s cased-based learning programme, the reader is conducted through the diagnostic work-up and the therapeutic options of a common typical clinical scenario of everyday clinical practice.

Explore the full case on the ESC’s case-based learning website at http://www.escardio.org/education/eLearning/case-based.
