Peoples corner: Julinda Mehilli MD FESC

New EHJ International Associate Editor

Julinda Mehilli MD, is Professor at the Ludwig-Maximilians University in Munich and Director, Department of Cardiology, Zentralklinikum Bad Berka, Germany. Dr Mehilli is a practicing interventional cardiologist with broad expertise in both coronary and structural percutaneous intervention. She has longstanding research interest in cardiovascular medicine, particularly in the field of drug-eluting stent design, per-interventional antithrombotic therapy, interventional treatment of aortic valvular disease, and the impact of gender on cardiovascular outcomes. She has served as principal investigator of several investigators-initiated trials: the most recent ones REBOOT, TROPICAL-ACS, ISAR-REACT 4, ISAR-TRIPLE, ISAR-LEFT MAIN 1&2, ISAR-CABG, and BRAVE 4. She has authored over 300 publications in cardiovascular research across the spectrum of prestigious internal medicine and cardiology journals.
