

ERRATUM

GeoArabia, vol. 5, no. 4, p. 545–578

Bioecostratigraphy of the Shu'aiba Formation, Shaybah Field, Saudi Arabia

Geraint Wyn Hughes, Saudi Aramco, Dhahran

In the version of Figure 13 printed on p. 570 of *GeoArabia* vol. 5, no. 4, 2000, the images of zones 5 and 6 had been transposed. The corrected Figure 13 is printed below. *GeoArabia* apologizes for the mistake.

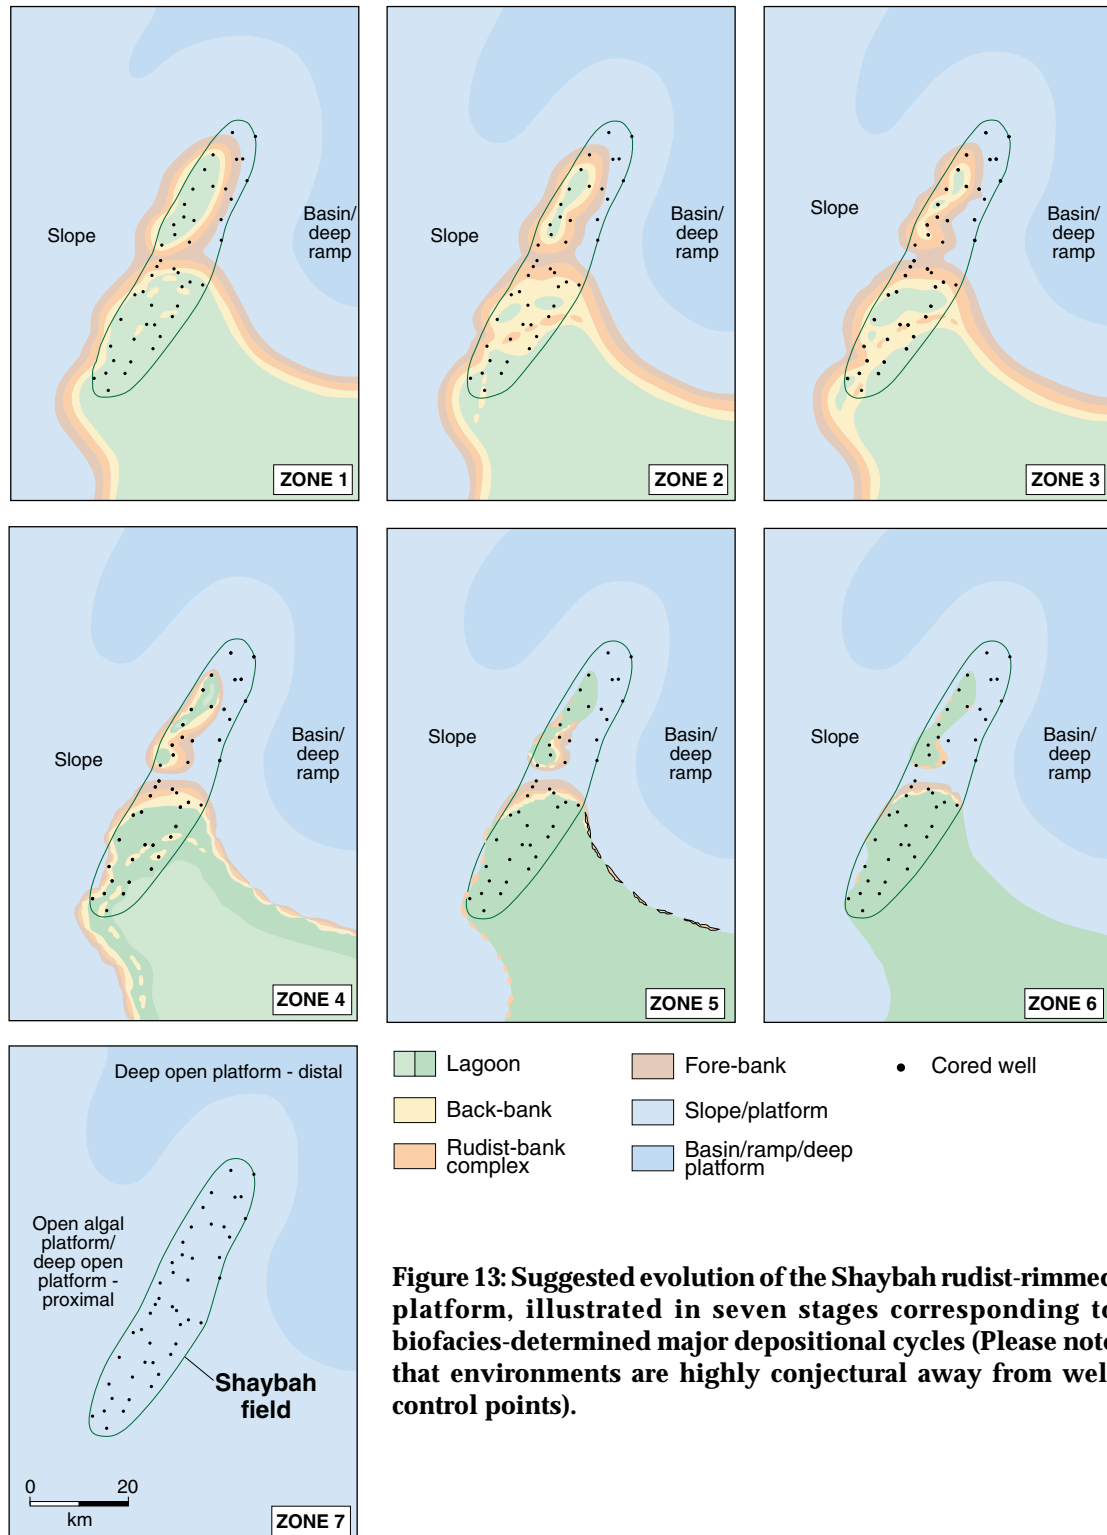

Figure 13: Suggested evolution of the Shaybah rudist-rimmed platform, illustrated in seven stages corresponding to biofacies-determined major depositional cycles (Please note that environments are highly conjectural away from well control points).
