This is a corrigendum to: Leo Pölzl, Can Gollmann-Tepeköylü, Felix Nägele, Kardelen Cetin, Johannes Spilka, Johannes Hofeld, Ulvi C Oezpeker, Luka Stastny, Michael Graber, Jakob Hirsch, Clemens Engler, Julia Dummerth, Elfriede Ruttmann-Ulmer, Herbert Hangler, Michael Grimm, Ludwig Müller, Daniel Höfer, Nikolaos Bonaros. Five-year outcomes of different techniques for minimally invasive mitral valve repair in Barlow’s disease.

In the originally published version of the manuscript, there was an error in section Study population and data collection; in the penultimate sentence, text in the parentheses should read: “[…]Serag-Wiessner[…]” instead of: “[…]Serrag-Wiesner[…]”.

The emendation has been made to the article.
