

Acknowledgments

Many people have contributed to these outlines over the past three decades. These outlines have been the joint effort of many staff members of the Michigan Diabetes Research and Training Center. Martha M. Funnell, MS, RN, CDCES, FADCSE, FAAN; Marilyn S. Arnold, MS, RD, CDE; and Patricia A. Barr, BS, served as lead authors and editors of the first edition published by the American Diabetes Association. Andrea J. Lasichak, MS, RD, joined them for the second, third, and fourth editions; and Cecilia Sauter, CDCES, contributed to the fifth edition. Special thanks to Sacha Uelmen, RDN, CDE, and Karen R. Horowitz, MD, FACP, for reviewing this edition to ensure that it meets the latest American Diabetes Association guidelines.
