The suggestions and information contained in this publication are generally consistent with the *Standards of Medical Care in Diabetes* and other policies of the American Diabetes Association, but they do not represent the policy or position of the Association or any of its boards or committees. Reasonable steps have been taken to ensure the accuracy of the information presented. However, the American Diabetes Association cannot ensure the safety or efficacy of any product or service described in this publication. Individuals are advised to consult a physician or other appropriate health care professional before undertaking any diet or exercise program or taking any medication referred to in this publication. Professionals must use and apply their own professional judgment, experience, and training and should not rely solely on the information contained in this publication before prescribing any diet, exercise, or medication. The American Diabetes Association—its officers, directors, employees, volunteers, and members—assumes no responsibility or liability for personal or other injury, loss, or damage that may result from the suggestions or information in this publication.

Barry Ginsberg, MD, PhD, conducted the internal review of this book to ensure that it meets American Diabetes Association guidelines.

© The paper in this publication meets the requirements of the ANSI Standard Z39.48-1992 (permanence of paper).
