The American Journal of Hypertension is a monthly, peer-reviewed journal that provides a forum for scientific inquiry of the highest standards in the field of hypertension and related cardiovascular disease. The journal publishes high-quality original research and review articles on basic sciences, molecular biology, clinical and experimental hypertension, cardiology, epidemiology, pediatric hypertension, endocrinology, nephrology, and nephrology.

EDITORIALS

The New ACC/AHA Hypertension Guidelines for the Prevention, Detection, Evaluation, and Management of High Blood Pressure in Adults
John M. Flack, David Calhoun and Ernesto L. Schiffrin

The Year in Clinical Hypertension From Other Pages
Ernesto L. Schiffrin

REVIEWS

Current Concepts in the Treatment of Renovascular Hypertension
Sandra M. Herrmann and Stephen C. Testor

Noncoding RNAs in Cardiovascular Disease: Pathological Relevance and Emerging Role as Biomarkers and Therapeutics
Rupesh S. Gangwar, Suraj Rajagopalan, Rama Natarajan and Jeffrey A. Deiuliis

COMMENTARIES

Electrical Activity of the Heart Under Pressure
Alberto Avolio, Isabella Tan, Mark Butlin and Edward Barn

Concomitant Hypertension and Diabetes: Role of Aortic Stiffness and Glycemic Management
Michel E. Safar, Gérard Siami and Jacques Blacher

Molecular Genetics of Salt-Sensitivity and Hypertension: Role of Renal Epithelial Sodium Channel Genes
Silva R. S. Freitas

Remin-Angiotensin Aldosterone System Parameters as Biomarker in Heart Failure Patients With Preserved Ejection Fraction: Focus on Angiotensinogen Estrella Lij and H. Jan Danzer

ORIGINAL CONTRIBUTIONS

HEART

ECG Voltage in Relation to Peripheral and Central Ambulatory Blood Pressure
Wen-Yi Yang, Blerim Mujaj, Ljupcho Efremov, Zhen-Yu Zhang, Lutgarde Thijs, Fang-Fei Wei, Qi-Fang Huang, Aernout Luttijn, Peter Verhamme, Tim S. Naeset, José Boggs and Jan A. Staessen

Molecular Genetics of Salt-Sensitivity and Hypertension: Role of Renal Epithelial Sodium Channel Genes
Silvia R. S. Freitas

RENIN ANGIOTENSIN ALDOSTERONE SYSTEM

Systemic Angiotensinogen Concentrations Are Independently Associated With Left Ventricular Diastolic Function in a Community Sample
Aletra M.E. Miller, Angela J. Woodiwiss, Monica Gomes, Frederic Michel and Gavin R Norton

DIABETES AND METABOLIC SYNDROME

Mortality and Macrovascular Risk in Elderly With Hypertension and Diabetes: Effect of Intensive Drug Therapy
Arseniy P. Yashkin, Julia Kravchenko, Anatoliy I. Yashin and Frank Sloan

DIAGNOSTICS AND BIOMARKERS

B-Type Natriuretic Peptide and Ventricular Dysfunction in the Prediction of Cardiovascular Events and Death in Hypertension
Joe Gallagher, Chris Watson, Shuaiwei Zhou, Fiona Ryan, Mark Ladegard and Kenneth McDonald
