EDITORIALS

Are alkylresorcinols accurate biomarkers for whole grain intake?  RM van Dam and FB Hu
See corresponding article on page 832.  797

Egg consumption in relation to cardiovascular disease and mortality: the story gets more complex.  RH Eckel
See corresponding article on page 964.  799

REVIEW ARTICLE

Consequences of smoking for body weight, body fat distribution, and insulin resistance.  A Chiolero et al

ORIGINAL RESEARCH COMMUNICATIONS

Obesity and eating disorders
Dietary energy density and diet variety as predictors of outcome in anorexia nervosa.  JE Schebendach et al

Lipids
Parallel activation of de novo lipogenesis and stearoyl-CoA desaturase activity after 3 d of high-carbohydrate feeding.  MF-F Chong et al

Reduced oxidation of dietary fat after a short term high-carbohydrate diet.  R Roberts et al

Nutritional status, dietary intake, and body composition
Alkylresorcinols as biomarkers of whole-grain wheat and rye intake: plasma concentration and intake estimated from dietary records.  R Landberg et al
See corresponding editorial on page 797.

Predictors of iron status in well-nourished 4- to 5-year-old children.  I Öhlund et al

Energy-dense, low-fiber, high-fat dietary pattern is associated with increased fatness in childhood.  L Johnson et al

Carbohydrate metabolism and diabetes
Comparison of the effects on insulin resistance and glucose tolerance of 6-mo high-monounsaturated-fat, low-fat, and control diets.  A Due et al

Vitamins, minerals, and phytochemicals
Further characterization of a furanocoumarin-free grapefruit juice on drug disposition: studies with cyclosporine.  MF Paine et al

SUPPLEMENT

Assessment of Vitamin D in Population-Based Studies  1073S
AJCN has the highest ISI impact among peer-reviewed nutrition and dietetics journals.

Each month, AJCN provides the very latest original research in human nutrition.
