Does social class predict diet quality?  N Darmon and A Drewnowski

Abdominal fat: does it predict the development of type 2 diabetes?  A Gastaldelli
See corresponding article on page 1212.

Infant feeding and vision.  WC Heird
See corresponding article on page 1392.

Obesity and eating disorders
Overweight children find food more reinforcing and consume more energy than do nonoverweight children.  JL Temple et al
Nutritional deficiencies after Roux-en-Y gastric bypass for morbid obesity often cannot be prevented by standard multivitamin supplementation.  C Gasteyger et al
Cognitive behavioral therapy improves diet and body composition in overweight and obese adolescents.  MD Tsiros et al
Effect of a dietary-induced weight loss on liver enzymes in obese subjects.  C Gasteyger et al
Television viewing and abdominal obesity in young adults: is the association mediated by food and beverage consumption during viewing time or reduced leisure-time physical activity?  VJ Cleland et al

Lipids
Plasma eicosapentaenoic acid is inversely associated with severity of depressive symptomatology in the elderly: data from the Bordeaux sample of the Three-City Study.  C Féart et al
The effect of salatrim, a low-calorie modified triacylglycerol, on appetite and energy intake.  LB Sørensen et al
Correlation between changes in blood fatty acid composition and visual sustained attention performance in children with inattention: effect of dietary n–3 fatty acids containing phospholipids.  N Vaisman et al
Comparative effects of intraduodenal infusions of lauric and oleic acids on antropyloroduodenal motility, plasma cholecystokinin and peptide YY, appetite, and energy intake in healthy men.  KL Feltrin et al

Cardiovascular disease risk
High–glycemic index carbohydrate increases nuclear factor-κB activation in mononuclear cells of young, lean healthy subjects.  S Dickinson et al
Twenty-four-hour endocrine and metabolic profiles following consumption of high-fructose corn syrup-, sucrose-, fructose-, and glucose-sweetened beverages with meals.  KL Stanhope et al
Betel nut chewing is associated with increased risk of cardiovascular disease and all-cause mortality in Taiwanese men.  W-Y Lin et al

Nutritional status, dietary intake, and body composition
Relation of central adiposity and body mass index to the development of diabetes in the Diabetes Prevention Program.  GA Bray et al
See corresponding editorial on page 1118.
Energy intake is associated with endotoxemia in apparently healthy men.  J Amar et al
Current dietary zinc intake has a greater effect on fractional zinc absorption than does longer term zinc consumption in healthy adult men.  CS Chung et al
Energy density of the diet and change in body fatness from childhood to adolescence; is there a relation?  TA McCaffrey et al
Effect of weight loss and ketosis on postprandial cholecystokinin and free fatty acid concentrations.  S Chearskul et al
The validity and reproducibility of food-frequency questionnaire–based total antioxidant capacity estimates in Swedish women.  S Rautiainen et al

Carbohydrate metabolism and diabetes
Caffeinated coffee consumption impairs blood glucose homeostasis in response to high and low glycemic index meals in healthy men.  LL Moisey et al
Effect of cinnamon and turmeric on urinary oxalate excretion, plasma lipids, and plasma glucose in healthy subjects.  M Tang et al

Exploring the Impact of High-Quality Protein on Optimal Health 1543S
Call for Nominations

The North American branch of the International Life Sciences Institute (ILSI NA) is a public, nonprofit scientific foundation, advancing the understanding and application of scientific issues related to the nutritional quality and safety of the food supply as well as health issues related to consumer self-care products. ILSI NA strives to foster the career and development of outstanding new scientists, and so is soliciting nominations of individuals to be considered to receive its 2009 Future Leader Awards.

The ILSI NA Future Leader Award, given to promising nutrition and food scientists, allows new investigators the opportunity to add to an existing project or to conduct exploratory research that might not receive funding from other sources. Proposed research must be in the areas of experimental nutrition, nutrition and food safety, or nutrition and food science. These 2-year grants ($15,000 per year) may not be used for overhead or to support the investigator’s salary.

Nominees must have a doctoral degree; be within 5 years of the first tenure track position, or stable employment at a reputable research institute; and be a resident of North America. Nominees should request that 3 letters of nomination be submitted to ILSI NA, one by the department head and two from other senior faculty or former professors (letters should include specific information on the nominee’s leadership qualities, area of interest, and special capabilities), and send a one-page letter to ILSI NA with complete contact information, names of referees, and a current curriculum vitae. The deadline for receipt of all materials is June 20, 2008. For further information, contact Frances DeLuca [phone: (202) 659-0074; e-mail: fdeluca@ilsina.org]. Internet: www.ilsina.org.
May 12–14, 2008
32nd National Nutrient Databank Conference: Nutrient Databases Without Borders, Ottawa, Ontario, Canada. With support from Health Canada. For further information, contact Josephine Deeks, Nutrition Research Division, Health Canada, Baniting Research Centre, PL 2203C, 251 Sir Frederick Banting Driveway, Ottawa, ON K1A 0L2, Canada. Phone: (613) 957-0926. Fax: (613) 941-6481. E-mail cnfusers@hc-sc.gc.ca. Internet: http://www.hc-sc.gc.ca/fn-an/nutrition/fiche-nutri-data/32nndc_e.html.

May 17–22, 2008
8th Biennial International Scientific Meeting of the International Society for the Study of Fatty Acids and Lipids (ISSFAL), Kansas City, MO. Sponsored by the ISSFAL. For further information, contact DJ Rand, Conference Coordinator, ISSFAL 2008, c/o Onyx Meetings and Events, 7327 West 79th Street, Overland Park, KS 66204. Phone: (913) 381-1123. Fax: (913) 381-2515. E-mail: dj@onyxmeetingsandevevents.com. Internet: http://www.issfal2008.org/.

May 19–23, 2008

June 4–5, 2008
Obesity and Health: Modifying Behavior, Modifying Food or Using Policy to Optimize Both, Amherst, MA. Sponsored by the University of Massachusetts Department of Food Science Policy Alliance and the Institute of Food Technologists (IFT)/American Society for Nutrition (ASN)/International Food Information Council (IFIC) Joint Task Force on Food Science and Nutrition. For further information, phone (413) 545-0172. Internet: http://www.nutrition.org/media/meetings/other-upcoming-meetings-and-professional-development-events/ Obesity%20Symposium%20Brochure%202008-1.pdf.

June 12–15, 2008
Food as Medicine Professional Nutrition Training Program, Baltimore, MD. Sponsored by the Center for Mind-Body Medicine. For further information, send an e-mail to fam@cmbm.org or phone (202) 966-7338. Internet: http://www.cmbm.org/ holistic_medicine_PROFESSIONAL_TRAINING_EDUCATION/food_as_medicine_description.php.

July 20–25, 2008
Federation of American Societies for Experimental Biology (FASEB) Summer Conference: Molecular Mechanisms Involved in the Nutrient Control of Cellular Function and Metabolism, Carefree, AZ. Sponsored by FASEB. For further information, contact FASEB Summer Research Conferences, 9650 Rockville Pike, Bethesda, MD 20814. Internet: https://secure.faseb.org/faseb/meetings/Summrconf/Programs/11715.pdf.

August 8–13, 2008*

August 10–15, 2008
Federation of American Societies for Experimental Biology (FASEB) Summer Research Conference on Folic Acid, Vitamin B12, and One Carbon Metabolism, Lucca, Italy. Deadline for abstract submission is July 1, 2008. Contact ASN member Charles H Halsted at chhalsted@ucdavis.edu regarding potential industry and corporate support for this meeting. For further information, please visit http://src.faseb.org.

August 11–13, 2008*
National Center for Health Statistics (NCHS) Data Users Conference, Washington, DC. For further information, contact the National Center for Health Statistics, 3311 Toledo Rd, Hyattsville, MD 20782. Phone: (800) 232-4636. E-mail: nchsquery@cdc.gov. Internet: http://www.cdc.gov/nchs/events/duc2008/08duc_postcard.htm.

September 2–4, 2008
25th International Council on Physical Activity and Fitness Research (ICPAFR) Symposium: Where Physical Activity, Nutrition, and Body Composition Meet, Loma Linda, CA. Presented by the ICPAFR and the Loma Linda University School of Public Health. Deadline for abstract submission is June 30, 2008. For further information, contact Venice Brown, Conference Coordinator, 10970 Parkland Street, Loma Linda University, Loma Linda, CA 92350. Phone: (909) 558-4595. Fax: (909) 558-0182. E-mail: vbrown@llu.edu. Internet: http://llu.edu/llu/sph/cpe/icpafr.html.

September 27–28, 2008*

September 27–30, 2008*
13th International Congress on Hormonal Steroids and Hormones & Cancer, Quebec, Quebec, Canada. Deadline for abstract submission is June 23, 2008. For further information, contact CRCHUL, 2705 Laurier Blvd, 4th Floor, T4-44, Quebec G1V 4G2, QC, Canada. Phone: (418) 654-2704. Fax: (418) 654-2735. E-mail: info@ichshc2008.com. Internet: http://www.ichshc2008.com/.
