Contents

339 S. M. ALGHAMDI and D. F. PERCY
Reliability equivalence factors for a series–parallel system of components with exponentiated Weibull lifetimes

359 Y. YATSENKO and N. HRTONENKO
Two-cycle optimization in replacement models with non-exponential technological improvement

373 R. JIANG
An efficient quasi-periodic inspection scheme for a one-component system

387 C. YANG, R. REMENYE-PRESCOTT and J. ANDREWS
Road maintenance planning using network flow modelling

403 A. V. ASIMIT, E. HASHORVA and D. KORTSCHAK
Aggregation of randomly weighted large risks

421 L. ZHOU, G. ZHANG and W. LIU
A new method for the selection of distribution centre locations

437 J. NIE and J. ZHANG
Distribution channel selection considering advertising productiveness

451 S. O. LOZZA, F. PETRONIO and T. LANDO
A portfolio return definition coherent with the investors’ preferences

IMA Journal of Management Mathematics

Editors
R. S. Mamon, P. Scarf and A. A. Syntetos

Volume 28 Number 3 July 2017

Part Special Issue: Modelling in Maintenance and Reliability

Guest Editors: Wenbin Wang and Shaomin Wu
