Volume 139 Part 5 May 2016

Editorial
1311 D. M. Kullmann

Scientific Commentaries
1312 Cytotoxic T cells go awry in inclusion body myositis. R. Hohlfeld and H. Schulze-Koops
1314 Cerebellum in Alzheimer’s disease and frontotemporal dementia: not a silent bystander. J. D. Schmahmann
1318 Monitoring the progression of Alzheimer’s disease with τ-PET. D. R. Thal and R. Vandenberghe
1321 Distinct tau PET imaging patterns in typical and atypical Alzheimer’s disease. M. Sarazin, J. Lagarde and M. Bottlaender

Review Article

Original Articles
1348 Association of inclusion body myositis with T cell large granular lymphocytic leukaemia. S. A. Greenberg, J. L. Pinkus, A. A. Amato, et al.
1361 TRPA1 mediates trigeminal neuropathic pain in mice downstream of monocytes/macrophages and oxidative stress. G. Trevisan, S. Benemei, S. Materazzi, et al.
1378 SYNE1 ataxia is a common recessive ataxia with major non-cerebellar features: a large multi-centre study. M. Synofzik, K. Smets, M. Mallaret, et al.
1394 Neuregulin-1 controls an endogenous repair mechanism after spinal cord injury. K. Bartus, J. Gobin, N. D. James, et al.
1433 In situ expansion of T cells that recognize distinct self-antigens sustains autoimmunity in the CNS. A. Ramadan, L. E. Lucca, N. Cerrit, et al.
1527 Network-selective vulnerability of the human cerebellum to Alzheimer’s disease and frontotemporal dementia. C. C. Gao, A. A. Amato, R. J. Hipps, et al.
1568 Rifampicin is a candidate preventive medicine against amyloid-β and tau oligomers. T. Umeda, K. Ono, A. Sakai, et al.
