Aims and Scope

Cardiovascular Research is the international basic science journal of the European Society of Cardiology. The Journal is concerned with both basic and translational research, across different disciplines and areas, enhancing insight in cardiovascular disease mechanisms and the perspective for innovation. The Journal welcomes submission of papers both at the molecular, subcellular, cellular, organ, and organism level, and of clinical proof-of-concept and translational studies. Manuscripts may be submitted as Original Articles, Rapid Communications, or Reviews. Moreover, the Journal publishes Letters to the Editor and Editorials (the latter are usually invited).

Cardiovascular Research is Abstracted/Indexed in: Biological Abstracts; Chemical Abstracts; Current Contents Life Sciences; Current Contents Clinical Medicine; Index Medicus: Journal Citation Reports®, published by Thomson Scientific; EMBASE/Excerpta Medica; MRN; Biotechnology Abstracts; Nutrition Abstracts; Index to Scientific Reviews; SLIC Data Bases.
