Abstracts of EUROECHO 2017
The Twenty-First Annual Meeting of the European Association of Echocardiography
6-9 December 2017, Lisbon
The Twenty-First Annual Meeting of the European Association of Cardiovascular Imaging, a registered branch of the ESC

Lisbon, 6–9 December 2017
European Heart Journal – Cardiovascular Imaging is a monthly international peer reviewed journal dealing with Cardiovascular Imaging, a registered branch of the European Society of Cardiology.
Aims and Scope

European Heart Journal - Cardiovascular Imaging is a monthly international peer reviewed journal dealing with Cardiovascular Imaging. It is an official publication of the European Association of Cardiovascular Imaging, a registered branch of the European Society of Cardiology.

The journal aims to publish the highest quality material, both scientific and clinical from all areas of cardiovascular imaging including echocardiography, magnetic resonance, computed tomography, nuclear and invasive imaging. A range of article types will be considered, including original research, reviews, editorials, image focus, letters and recommendation papers from relevant groups of the European Society of Cardiology. In addition it provides a forum for the exchange of information on all aspects of cardiovascular imaging.

Authors wishing to submit to European Heart Journal - Cardiovascular Imaging should refer to the instructions to authors (https://academic.oup.com/ehjcimaging/pages/Gralen atactions) and submit papers to the online submission system (http://www.editorialmanager.com/ehjci/)

Supplements, reprints and corporate sales
For requests from industry and companies regarding supplements, bulk article reprints, sponsored supplements, translation opportunities for previously published material, and corporate online opportunities, please e-mail special.sales@oup.com, fax + 44 (0)1865 353774 or visit http://www.oupmediainfo.com/#!reprints-eprints.

Material disclaimer
The opinions expressed in EHJCI are those of the authors and contributors, and do not necessarily reflect those of the European Heart Rhythm Association, the European Society of Cardiology, the editors, the editorial board, Oxford University Press or the organization to which the authors are affiliated. The editors and publishers have taken all reasonable precautions to verify drug names and doses, the results of experimental work and clinical findings published in the journal. The ultimate responsibility for the use and dosage of drugs mentioned in the Journal and in interpretation of published material lies with the medical practitioner, and the editors and publisher cannot accept liability for damages arising from any error or omissions in the Journal. Please inform the editors of any errors.

Society
All members of national cardiac societies in Europe, ESC Associations, Working Groups and Councils, are automatically members of the European Society of Cardiology and are entitled to receive the journal at the special reduced rate.

European Society of Cardiology Members price: £20.

Members subscription orders should be sent to: ESC, The European Heart House, 2035 Route des Collées, B.P. 179, Les Templiers, FR-06903 Sophia Antipolis, France. Tel: +33 4 9294 1823; fax: +33 4 9294 8622; e-mail: miskache@escardio.org.

Type set by Cenveo Publisher Services, Bangalore, India. Printed by Bell and Bain Ltd, Glasgow on acid-free paper.

### Wednesday 6 December 2017

- Rapid Fire Abstract session - Up-to-date research on left ventricular function
- Clinical Cases session - Diagnosis and management of cardiomyopathies: overcoming the challenges
- Best Moderated Posters session of HIT community
- Moderated Posters session - Exercise - the bad, the ugly or the good guy
- Rapid Fire Abstract session - The prognostic value from echocardiography
- HIT Poster session 1
- Clinical Case Poster session 1
- Poster session 1

### Thursday 7 December 2017

- Rapid Fire Abstract session - The additional role of Nuclear Cardiology/Computed Tomography imaging in difficult patients
- Young Investigator Award session - Basic Science
- Clinical cases moderated Poster session - The nightmare of aortic syndromes: be prepared to survive
- Clinical Cases session - HIT the case!
- Moderated Posters session - Pathophysiological insights for diagnosis and prognosis using advanced cardiovascular magnetic resonance imaging
- Moderated Posters session - Mitral regurgitation in the era of edge-to-edge percutaneous procedure
- Rapid Fire Abstract session - Assessment of LV performance
- Young Investigator Award session - Clinical Science - The Roelandt's Young Investigator Award
- Clinical cases Moderated Poster session - Myocardial disease: see that case at least once!
- Rapid Fire Abstract session - Congenital Heart Disease
- HIT Poster session 2
- Clinical Case Poster session 2
- Poster session 2
- Clinical Case Poster session 3
- Poster session 3

### Friday 8 December 2017

- Rapid Fire Abstract session - New insights in diastology
- Clinical Cases Moderated Posters session - Congenital heart disease
- Clinical Cases session - Congenital heart disease from infant to adult
- Moderated Posters session - Present and future of Nuclear Cardiology/Computed Tomography imaging for clinical purpose
- Moderated Posters session - New secrets revealed about cardiomyopathies
- Rapid Fire Abstract session - New insight in aortic stenosis
- Clinical cases Moderated Poster session - A mass or a mess, let's have a look!
- Rapid Fire Abstract session - New methods in the echocardiographic assessment of cardiac function
- HIT Poster session 3
- Clinical Case Poster session 4
- Poster session 4
- Clinical Case Poster session 5
- Poster session 5
Saturday 9 December 2017

Clinical Cases session - The image you never saw but it exists!
Moderated Posters session - Congenital heart disease
Clinical cases Moderated Poster session - Waiting for Euro-Endo results: endocarditis Clinical Cases session
Clinical Case Poster session 6
Poster session 6

Welcome to EuroEcho-Imaging 2017 in Lisbon, Portugal!

EuroEcho-Imaging is the flagship of the European Association of Cardiovascular Imaging (EACVI) and the world’s largest cardiovascular imaging congress.

This year’s main themes are **imaging in heart failure** and **interventional imaging**. The aim of EuroEcho-Imaging will be to create an exciting forum, in which both clinicians and scientists can present and discuss the most up-to-date research and clinical findings on the broader spectrum of echocardiography alongside with the other cardiovascular imaging modalities. Cardiologists, physicians from other specialities and imagers who use these cardiac and vascular imaging techniques will interact to discuss how to ideally use all the capabilities offered by these techniques and how to further develop them in the near future.

An educational track will run throughout the congress, featuring several specifically designed courses and sessions. Young cardiologists and researchers will be stimulated and supported through the three **Young Investigator Award competitions** (clinical, basic science, clinical case).

Also, dedicated initiatives will reward the **best original research**. However, EuroEcho-Imaging is more than just education and science. It is also a fantastic opportunity to meet the greatest experts in cardiovascular imaging in the world, to exchange ideas and projects with colleagues who share the same clinical or scientific interest coming from all over the world.

Thank you for being with us in Lisbon, we look forward to seeing you in the coming days.

Prof. Bogdan A. Popescu  
EACVI President

Prof. Erwan DONAL  
EuroEcho-Imaging Scientific Chair
