Contents

An introduction to historical perspectives on and modern approaches to field geology education . . .vii
Steven J. Whitmeyer, David W. Mogk, and Eric J. Pyle

Historical to Modern Perspectives of Geoscience Field Education

1. *Indiana University geologic field programs based in Montana: G429 and other field courses, a balance of traditions and innovations* 1
B.J. Douglas, L.J. Suttner, and E. Ripley
2. *The Yellowstone-Bighorn Research Association (YBRA): Maintaining a leadership role in field-course education for 79 years* 15
Virginia B. Sisson, Marv Kauffman, Yvette Bordeaux, Robert C. Thomas, and Robert Giegengack
3. *Field camp: Using traditional methods to train the next generation of petroleum geologists* . . . 25
James O. Puckette and Neil H. Suneson
4. *Introductory field geology at the University of New Mexico, 1984 to today: What a “long, strange trip” it continues to be* 35
John W. Geissman and Grant Meyer
5. *Innovation and obsolescence in geoscience field courses: Past experiences and proposals for the future* 45
Declan G. De Paor and Steven J. Whitmeyer
6. *Integration of field experiences in a project-based geoscience curriculum* 57
Paul R. Kelso and Lewis M. Brown
7. *Experience One: Teaching the geoscience curriculum in the field using experiential immersion learning* 65
Robert C. Thomas and Sheila Roberts
8. *International geosciences field research with undergraduate students: Three models for experiential learning projects investigating active tectonics of the Nicoya Peninsula, Costa Rica* 77
Jeffrey S. Marshall, Thomas W. Gardner, Marino Protti, and Jonathan A. Nourse
9. *International field trips in undergraduate geology curriculum: Philosophy and perspectives* . . . 99
Nelson R. Ham and Timothy P. Flood

Modern Field Equipment and Use of New Technologies in the Field

10. *Visualization techniques in field geology education: A case study from western Ireland* 105
Steven Whitmeyer, Martin Feely, Declan De Paor, Ronan Hennessy, Shelley Whitmeyer,
Jeremy Nicoletti, Bethany Santangelo, Jillian Daniels, and Michael Rivera
11. *Integrated digital mapping in geologic field research: An adventure-based approach to
teaching new geospatial technologies in an REU Site Program* 117
Mark T. Swanson and Matthew Bampton
12. *Integrating hydrology and geophysics into a traditional geology field course: The use of
advanced project options* 135
Robert L. Bauer, Donald I. Siegel, Eric A. Sandvol, and Laura K. Lautz
13. *Integrating ground-penetrating radar and traditional stratigraphic study in
an undergraduate field methods course* 155
R.K. Vance, C.H. Trupe, and F.J. Rich

Original Research in Field Education

14. *Twenty-two years of undergraduate research in the geosciences—The Keck experience* 163
Andrew de Wet, Cathy Manduca, Reinhard A. Wobus, and Lori Bettison-Varga
15. *Field glaciology and earth systems science: The Juneau Icefield Research Program (JIRP),
1946–2008* 173
Cathy Connor
16. *Long-term field-based studies in geoscience teaching* 185
Noel Potter Jr., Jeffrey W. Niemitz, and Peter B. Sak
17. *Integrating student-led research in fluvial geomorphology into traditional field courses:
A case study from James Madison University's field course in Ireland* 195
C.L. May, L.S. Eaton, and S.J. Whitmeyer
18. *A comparative study of field inquiry in an undergraduate petrology course* 205
David Gonzales and Steven Semken

Field Experiences for Teachers

19. *Evolution of geology field education for K–12 teachers from field education for geology
majors at Georgia Southern University: Historical perspectives and modern approaches* 223
Gale A. Bishop, R. Kelly Vance, Fredrick J. Rich, Brian K. Meyer, E.J. Davis, R.H. Hayes,
and N.B. Marsh
20. *Water education (WET) for Alabama's black belt: A hands-on field experience for
middle school students and teachers* 253
Ming-Kuo Lee, Lorraine Wolf, Kelli Hardesty, Lee Beasley, Jena Smith, Lara Adams,
Kay Stone, and Dennis Block
21. *The Integrated Ocean Drilling Program "School of Rock": Lessons learned
from an ocean-going research expedition for earth and ocean science educators* 261
Kristen St. John, R. Mark Leckie, Scott Slough, Leslie Peart, Matthew Niemitz, and Ann Klaus

22. *Geological field experiences in Mexico: An effective and efficient model for enabling middle and high school science teachers to connect with their burgeoning Hispanic populations* 275
K. Kitts, Eugene Perry Jr., Rosa Maria Leal-Bautista, and Guadalupe Velazquez-Oliman

Field Education Pedagogy and Assessment

23. *The undergraduate geoscience fieldwork experience: Influencing factors and implications for learning* 291
Alison Stokes and Alan P. Boyle
24. *External drivers for changing fieldwork practices and provision in the UK and Ireland* 313
Alan P. Boyle, Paul Ryan, and Alison Stokes
25. *Effectiveness in problem solving during geologic field examinations: Insights from analysis of GPS tracks at variable time scales* 323
Eric M. Riggs, Russell Balliet, and Christopher C. Lieder
26. *The evaluation of field course experiences: A framework for development, improvement, and reporting* 341
Eric J. Pyle
