Aims and Scope

The European Heart Journal is an international, English language, peer-reviewed journal dealing with Cardiovascular Medicine. It is an official Journal of the European Society of Cardiology and is published 48 times a year.

The European Heart Journal aims to publish the highest quality material, both clinical and scientific, on all aspects of Cardiovascular Medicine. It includes articles related to research findings, technical evaluations, and reviews. In addition it provides a forum for the exchange of information on all aspects of Cardiovascular Medicine, including education issues.

The European Heart Journal is cited in: Science Citation Index, SCImago, Research Alert, Medical Documentation Service, Current Contents/Clinical Medicine, Chemical Abstracts, EMBASE and Index Medicus. The 2016 Impact Factor was 20.213.
