SSUBSCRIPTIONS
A subscription to Bioinformatics comprises 24 issues. All prices include postage, and for subscribers outside the UK is delivered by Standard Air. Bioinformatics is available on a weekly basis and full access is required for all online services. Full access to online content is available for all users.

SPECIAL SALES
Advertising, inserts and artwork enquiries should be addressed to Advertising and Special Sales, Oxford Journals, Oxford University Press, Great Clarendon Street, Oxford OX2 6DP, UK. Tel: +44 (0)1865 353470. Email: jadvertising@oup.com

Special offers and corporate online opportunities, please email special.sales@oup.com

Please visit the journal’s website https://academic.oup.com/bioinformatics.

APPLICATIONS

Genome analysis
MutANET: a tool for automated analysis of genomic mutations in gene regulatory networks
M.Hollander, M.Hamed, V.Henms and K.Neninger
Maxdepth: quick coverage calculation for genomes and exomes
B.Pedersen and A.R.Quinlan

mORCA: sailing bioinformatics worlds with mobile devices
S.Diez-del-Prelo, J.Falguerez, E.Perez-Wohlleb and O.Trelles
SeqBox: RNAseq/ChIPseq reproducible analysis on a consumer game computer
M.Buccic, F.Cordero, M.Angioni, R.Panero, E.G.Amparore, S.Donatelli and R.Caligero

Simulating the dynamics of targeted capture sequencing with CaptSim
M.Cao, D.Huang, C.Zhou and L.J.M.Coin

pStats: prediction of stable mutants, unfolding curves, stability maps and protein electrostatic frustration
S.Dipio, D.Owen, P.Krishna and A.A.Naganathan

LIBRA-WA: a web application for ligand binding site detection and protein function recognition
D.Teb, V.Lung, V.Tortora, V.Brandi and F.Pallotti

Gene expression
AEGS: identifying aberrantly expressed gene sets for differential variability analysis
J.Guan, M.Chen, C.Ye, J.J.Cai and G.Ji

Bringing numerous methods for expression and promoter analysis to a public cloud computing service

Genetics and genotyping
M.Ishikawa and S.J.Chanock
