Virginia Toy (Germany)
Georg Zellmer (New Zealand)

Geological Society books refereeing procedures

The scientific and production quality of the Geological Society's books matches that of its journals. Since 1997, all book proposals are reviewed by two individual experts and the Society's Books Editorial Committee. Proposals are only accepted once any identified weaknesses are addressed.

The Geological Society of London is signed up to the Committee on Publication Ethics (COPE) and follows the highest standards of publication ethics. Once a book has been accepted, the volume editors agree to follow the Society's Code of Publication Ethics and facilitate a peer review process involving two independent reviewers. This is overseen by the Society Book Editors who ensure these standards are adhered to.

Geological Society books are timely volumes in topics of current interest. Proposals are often devised by editors around a specific theme or they may arise from meetings. Irrespective of origin, editors seek additional contributions throughout the editing process to ensure that the volume is balanced and representative of the current state of the field.

Submitting a book proposal

More information about submitting a proposal and producing a book for the Society can be found at <https://www.geolsoc.org.uk/proposals>.

It is recommended that reference to all or part of this book should be made in one of the following ways:

Hendry, J., Burgess, P., Hunt, D., Janson, X. and Zampetti, V. (eds) 2021. *Seismic Characterization of Carbonate Platforms and Reservoirs*. Geological Society, London, Special Publications, **509**, <https://doi.org/10.1144/SP509>

Barnett, A. J., Fu, L., Rapasi, T., Scotellaro, C., Guha, J., Cabolova, A. and Domingues, A. L. 2021. Seismic characterization and origin of clinoforms in lacustrine depositional environments: a case study from the Cretaceous of the South Atlantic. *Geological Society, London, Special Publications*, **509**, 127–145, <https://doi.org/10.1144/SP509-2019-148>

The Geological Society of London

The Geological Society of London is a not-for-profit organization, and a registered charity (no. 210161). Our aims are to improve knowledge and understanding of the Earth, to promote Earth science education and awareness, and to promote professional excellence and ethical standards in the work of Earth scientists, for the public good. Founded in 1807, we are the oldest geological society in the world. Today, we are a world-leading communicator of Earth science – through scholarly publishing, library and information services, cutting-edge scientific conferences, education activities and outreach to the general public. We also provide impartial scientific information and evidence to support policy-making and public debate about the challenges facing humanity. For more about the Society, please go to <https://www.geolsoc.org.uk/>

The Geological Society Publishing House (Bath, UK) produces the Society's international journals and books, and acts as European distributor for selected publications of the American Association of Petroleum Geologists (AAPG), the Geological Society of America (GSA), the Society for Sedimentary Geology (SEPM) and the Geologists' Association (GA). GSL Fellows may purchase these societies' publications at a discount. The Society's online bookshop is at <https://www.geolsoc.org.uk/bookshop>

To find out about joining the Society and benefiting from substantial discounts on publications of GSL and other Societies go to <https://www.geolsoc.org.uk/membership> or contact the Fellowship Department at: The Geological Society, Burlington House, Piccadilly, London W1J 0BG; Tel. +44 (0)20 7434 9944; Fax +44 (0)20 7439 8975; E-mail: enquiries@geolsoc.org.uk

For information about the Society's meetings, go to <https://www.geolsoc.org.uk/events>. To find out more about the Society's Corporate Patrons Scheme visit <https://www.geolsoc.org.uk/patrons>

Proposing a book

If you are interested in proposing a book then please visit: <https://www.geolsoc.org.uk/proposals>

Acknowledgements

The editors of this volume express their sincere thanks to everyone who has contributed to the papers herein, as well as to professionals in academia and industry who generously gave their time in peer-reviewing them. The contribution of Geological Society Publishing House staff in producing the volume to a very high professional standard is also greatly appreciated. The support of the Energy Group,

British Sedimentological Research Group and of SEPM in promoting the international conference that led to this volume is gratefully acknowledged.

The Geological Society thanks the following organizations for their generous sponsorship of the Seismic Characterisation of Carbonate Platforms and Reservoirs conference that led to this volume.
