

AUTOGENIC DYNAMICS AND SELF-ORGANIZATION IN SEDIMENTARY SYSTEMS

EDITED BY:

DAVID A. BUDD

*Department of Geological Sciences, University of Colorado,
Boulder, Colorado 80309-0399, USA*

ELIZABETH A. HAJEK

*Department of Geosciences, The Pennsylvania State University,
511 Deike Building, University Park, Pennsylvania 16802, USA*

SAM J. PURKIS

*Department of Marine Geosciences, RSMAS, University of Miami,
Miami Florida 33149, USA*

SEPM SPECIAL PUBLICATION NO. 106

This volume is based on presentations made at the
Autogenic Dynamics of Sedimentary Systems
SEPM Research Conference
Grand Junction, Colorado, August 3–6, 2014

Generous support for the Research Conference was provided by:

ExxonMobil Upstream Research Company

The Society for Sedimentary Geology, Capital Projects Fund

SEPM (Society for Sedimentary Geology) is an international not-for-profit Society based in Tulsa, Oklahoma. Through its network of international members, the Society is dedicated to the dissemination of scientific information on sedimentology, stratigraphy, paleontology, environmental sciences, marine geology, hydrogeology, and many additional related specialties.

The Society supports members in their professional objectives by publication of two major scientific journals, the *Journal of Sedimentary Research* (JSR) and *PALAIOS*, in addition to producing technical conferences, short courses, and Special Publications. Through SEPM's Continuing Education, Publications, Meetings, and other programs, members can both gain and exchange information pertinent to their geologic specialties.
