Renal Disaster Relief Task Force (RDRTF): call for volunteers

The RDRTF takes care of interventions during mass disasters such as earthquakes whereby large numbers of acute renal failure (ARF) occur, and support is offered to the local medical and nephrological communities. The RDRTF intervened at the Marmara earthquake in Turkey in 1999, the Bam earthquake in Iran in 2003 and most recently in Kashmir in Pakistan. The RDRTF – European Branch is looking for young doctors, nurses and dialysis technicians who volunteer to take part in our actions. Missions last approximately 10 days. People who are interested, with experience in acute renal failure and/or intensive care nephrology, organising skills, respect for foreign cultures and diplomatic talent are asked to contact Raymond Vanholder, the current chairman of the RDRTF at the following e-mail address: Raymond.vanholder@ugent.be

The 2008 ISHD Belding Scribner Trailblazer Award
