Identification of new NPHS1 mutations and detection of a founder-effect haplotype in New Zealand families with congenital nephrotic syndrome of the Finnish type

M. Gigante, V. Defazio, A. Iolascon and L. Gesualdo

The coauthors regret that William Wong (Director, Department of Nephrology, Starship Children’s Hospital, Park Road, Grafton, Auckland, New Zealand) was previously omitted as coauthor of this paper by unfortunate accident. He should be a coauthor of this abstract.
