CORRIGENDUM

Predicting cis-acting elements of *Lactobacillus plantarum* by comparative genomics with different taxonomic subgroups

Michiel Wels, Christof Francke, Robert Kerkhoven, Michiel Kleerebezem and Roland J. Siezen

Due to a revision error in the above article, one of the cited studies appeared incorrectly.

The correct reference to the identification of the riboflavin transporter in *Bacillus subtilis* (page 1955, line 31) should be Christian Vogl.

The authors regret any confusion this error may have caused.
