CORRIGENDUM

Myc and PI3K/AKT signaling cooperatively repress FOXO3a-dependent PUMA and GADD45a gene expression

Stefano Amente, Jiyuan Zhang, Miriam Lubrano Lavadera, Luigi Lania, Enrico Vittorio Avvedimento and Barbara Majello

In Figure 1A, the GADD45 western blot results were accidentally duplicated in the FOXO3a-P panel. A new Figure 1 is included, including the correct FOXO3a-P western blot results. This error does not affect the results or the conclusion of the article. The authors apologize to the readers and publisher for any inconvenience this may have caused.
