Editorial Board

Downloaded from https://academic.oup.com/genetics/issue/226/3 by guest on 15 March 2024
GENETICS publishes high quality, original research presenting novel findings on a range of topics bearing on heredity and variation. GENETICS is a peer-edited journal—all editorial decisions are made by the authors’ peers—with a tradition of rigorous peer review. Publication is open equally to members and non-members of the Genetics Society of America. Submit manuscripts at https://genetics.msubmit.net.

Genetics Society of America

Founded in 1931, the Genetics Society of America (GSA) is the professional membership organization for scientific researchers, educators, bioengineers, bioinformatics, and others interested in the field of genetics. Its nearly 5,000 members work to advance knowledge in the basic mechanisms of inheritance, from the molecular to the population level. The GSA is dedicated to promoting research in genetics and to facilitating communication among geneticists worldwide through its conferences, including the biennial conference on Model Organisms to Human Biology, an interdisciplinary meeting on current and cutting-edge topics in genetics research, as well as annual and biennial meetings that focus on the genetics of particular organisms, including *Caenorhabditis elegans*, *Drosophila*, fungi, mice, yeast, and zebrafish. GSA publishes GENETICS, a leading journal in the field, and an online, open-access journal, G3: Genes|Genomes|Genetics. For more information about GSA, please visit www.genetics-gsa.org. Also follow GSA on Facebook at facebook.com/GeneticsGSA and on Twitter @GeneticsGSA.

GENETICS (ISSN 1943-2631) is published monthly on behalf of the Genetics Society of America, by Oxford University Press. Copyright © 2023 by the Genetics Society of America.

Correspondence about membership, nonmember subscriptions, and other non-editorial matters should be directed to the appropriate address below, according to whether the inquirer is (or would be) a GSA member or institutional or nonmember subscriber.

**GSA MEMBERS ONLY:**
6120 Executive Boulevard
Suite 550
Rockville, MD 20852
(240) 880-2000
society@genetics-gsa.org

**INSTITUTIONAL AND NONMEMBER SUBSCRIPTIONS:**
Please see this page for the contact information for your location:
https://academic.oup.com/journals/pages/contact_us/customer_services

GENETICS is available in microform from University Microfilms International, 300 North Zeeb Road, Ann Arbor, Michigan 48106; European inquiries maybe directed to 30-32 Mortimer Street, Dept. PR, London, W1N 7RA, England.

Students may incorporate any portion of their research published in GENETICS into a dissertation without further specific permission. These permissions do not extend to copying for other purposes, such as for advertising or promotional purposes, for creating new collective works, or for resale. Please submit such requests to Copyright Clearance Center’s RightsLink service for GENETICS through the "Permissions" link on each article.
