Aims and Scope

The European Heart Journal is an international, English language, peer-reviewed journal dealing with Cardiovascular Medicine. It is an official Journal of the European Society of Cardiology and is published 48 times a year.

The European Heart Journal aims to publish the highest quality material, both clinical and scientific, on all aspects of Cardiovascular Medicine. It includes articles related to research findings, technical evaluations, and reviews. In addition it provides a forum for the exchange of information on all aspects of Cardiovascular Medicine, including education issues.

The European Heart Journal is cited in: Science Citation Index, SCiSearch, Research Alert, Medical Documentation Service, Current Contents/Clinical Medicine, Chemical Abstracts, EMBASE and Index Medicus. The 2020 Impact Factor was 29.983.

Environmental and ethical policies

Oxford Journals, a division of Oxford University Press, is committed to working with the global community to bring the highest quality research to the widest possible audience. Oxford Journals will protect the environment by implementing environmentally friendly policies and practices wherever possible.
