Errata

In the article “Postpartum Assessment of the Renin Angiotensin System in Women with Previous Severe, Early-Onset Preeclampsia” by Michelle A. Hladunewich, John Kingdom, Ayodele Odutayo, Kevin Burns, Vesta Lai, Tara O’Brien, Shital Gandhi, Joseph Zimpelmann, Alex Kiss, Judith Miller, and David Cherney (J Clin Endocrinol Metab 96:3517–3524, 2011; doi: 10.1210/jc.2011-1125), the authors noted a discrepancy between the text of the Results section of the article and the legend of Figure 2. While the Results section provides the correct interpretation of Figure 2, the color labels in the legend of the graph are reversed for the PPC group and NPC group (please see page 5 of the article). The correct figure is presented below. The authors apologize for this oversight.
