

**Corrigendum: *Journal of Hydroinformatics* 23 (1), 76–87: Sara4r: an R graphical user interface (GUI) to estimate watershed surface runoff applying the NRCS – curve number method, Rafael Hernández-Guzmán, Arturo Ruiz-Luna and Eduardo Mendoza. <https://doi.org/10.2166/hydro.2020.087>**

The authors regret that there was an error in their original paper and apologise for any inconvenience caused. The errors have now been corrected as follows.

There was mistake in Equation (5). The equation should be corrected to read as follows.

$$CN_I = \frac{CN_{II}}{2.2754 - 0.012754CN_{II}}$$

The mistake occurs only in the manuscript; in the source code the equation is correct.
