Reply to Korch

We thank Dr Korch for the clarification [1]. Although Dr Arnon consulted US government representatives, who encouraged him to submit the results of his studies [2, 3], the editors of The Journal of Infectious Diseases reviewed the submitted manuscripts, sent them for extensive peer review, and agreed to publish them with genetic sequence information
withheld because adequate countermeasures were not yet available.

Note

Potential conflicts of interest. All authors: No reported conflicts.

All authors have submitted the ICMJE Form for Disclosure of Potential Conflicts of Interest. Conflicts that the editors consider relevant to the content of the manuscript have been disclosed.

David C. Hooper and Martin S. Hirsch

Division of Infectious Diseases, Massachusetts General Hospital, Cambridge
