**Positions Available**

Policy Analyst

The Society of American Foresters in Bethesda, Maryland, is accepting applications for the position of policy analyst. The successful candidate will be part of a four-person team and will report to and assist the director of forest policy in administering the Society's forest policy program.

**Duties and Responsibilities:**
- Monitoring, analyzing, and reporting on national, regional, and state policy issues of significance to forestry and the forestry profession; reporting on the Society's forest policy activities and coordinating policy efforts with volunteers throughout the Society's organizational levels; managing the Society's grassroots advocacy program; tracking proposed organizational levels; managing the Society's efforts with volunteers throughout the Society's forest policy activities, and coordinating policy the forestry profession; reporting on the Society's state policy issues of significance to forestry and policy in administering the Society's forest policy program.

**Qualifications Required:**
- BS in forestry or natural resources. Desirable: Advanced degree in forestry or other natural resource management field or public administration; experience in natural resource policy at the state or federal level; understanding of the federal regulatory process and the impact of regulations on ground-level forest management.

The successful candidate is self-motivated, possesses well-developed organizational skills, and has demonstrated the ability to work under pressure, to communicate well orally and in writing, and to work creatively with people representing diverse viewpoints.

Qualified applicants should send a cover letter, résumé, writing sample, and salary history to Director of Forest Policy, Society of American Foresters, 5400 Grosvenor Lane, Bethesda, MD 20814-2198; fax (301) 897-3690. No phone calls, please.

The Society of American Foresters is an equal opportunity employer. Candidates for employment are considered without regard to race, age, religion, color, sex, national origin, military status, marital status, disability, or any other protected category.

Assistant Professor of Urban and Community Forestry, Faculty of Forestry, University of Toronto

Applications are invited for the position of assistant professor of urban and community forestry in the Faculty of Forestry, University of Toronto, commencing on July 1, 1999, or as soon thereafter as possible. This is a tenure-stream position.

The Faculty of Forestry is a graduate faculty which offers three programs. The MScF and PhD are research degree programs, which involve graduate courses and thesis research closely linked to the research interest of individual faculty members. The master of forest conservation (MFC) program is an intensive 16-month degree program with strong emphasis on field and practical work, summer internships, and residential field camps in Canada and abroad. The MFC has two streams of concentration: international forestry and urban forestry. The successful candidate for this position will be expected to participate actively in teaching and supervision in each of the three programs. Members of the faculty also normally participate in some undergraduate teaching in other divisions of the university.

The University of Toronto is a research-in-
tensive university with an international mandate. A PhD and excellent research potential are essential qualifications. In addition to interest in innovative teaching and program development, the successful candidate must show strong personal commitment to research and the support of a vigorous group of graduate research students.

The position is intended for applicants with primary interests and experience in urban and community forestry, who will take responsibility for the urban forestry stream in the MFC program. Applications will, however, be welcomed from candidates who have experience and research interests in related areas of forestry such as agroforestry, forest policy, international trade in forest products, aboriginal forestry, nontraditional forestry, and alternative forest management systems.

In accordance with its Employment Equity Policy, the University of Toronto encourages applications from all qualified women and men, members of minorities, aboriginal peoples, and persons with disabilities. Inquiries about the Faculty of Forestry and this position are welcomed, and further information can also be obtained from the faculty website at http://www.forestry.utoronto.ca. In accordance with Canadian immigration requirements, this advertisement is directed to Canadian citizens and permanent residents. Letters of application accompanied by a detailed curriculum vitae should be submitted by mail or electronically before April 30, 1999. Applicants should also ask three referees to send letters of references at the same time to Professor Rorke Bryan, Dean, Faculty of Forestry, University of Toronto, 33 Willcocks Street, Toronto, Ontario, Canada M5S 3B3; e-mail: joan.bunyan@utoronto.ca.

Faculty Position, Wildlife Management

The Arthur Temple College of Forestry seeks applicants for a tenure-track position in wildlife management. This position includes teaching undergraduate and graduate courses in wildlife management, forest wildlife habitat management, and wildlife ecology; developing a comprehensive graduate education program in wildlife management; providing public service/outreach information as needed; and developing a strong, funded research program. Interdisciplinary collaboration with other faculty will be an important component of this position.

The successful applicant will hold a PhD with specialization in wildlife management./
a degree in forestry preferred. Experience in interdisciplinary teaching and research, knowledge of interactions of forest management with wildlife communities, and strong skills in statistics are desired.

Send letter of application discussing training, experience, and statement that includes teaching and research interests; a résumé; list of references; and copies of transcripts covering all academic work by June 1, 1999, to Dr. Gary Kronrad, Search Committee Chair, Arthur Temple College of Forestry, Stephen F. Austin State University, Nacogdoches, TX 75962-6109; (409) 468-2473; fax (409) 468-2489. Position to be filled for fall term of 1999.
