**Positions Available**

Assistant Professor, Forest Pathogen, Insect or Microbial Ecology, University of Idaho

Tenure-track assistant professor position available. Responsibilities include teaching of forest pathology/entomology and research. Earned doctorate degree with refereed publications. Closing date for application is January 1, 1999, or until a suitable candidate is found. For a copy of the position description and application materials, contact John Marshall, Chair, Search Committee, University of Idaho, Department of Forest Resources, Moscow, ID 83844-1133, (208) 885-7952; fax (208) 885-6226; e-mail: fores@uidaho.edu or see www.uidaho.edu/cfwr.

UI is an EO/AA employer.

Faculty Member, Program Coordinator/Director, Michigan Technological University

**Responsibilities:** The successful candidate will have leadership and administrative responsibility for maintaining excellence in teaching and research. Specific duties include (1) representation of the wood science program within MTU and at the state, national, and international levels; (2) overall responsibility for the administration and coordination of the undergraduate and graduate wood science programs; (3) administration of the wood science budget; (4) teaching and research within the successful candidate's area of expertise; and (5) assessment and accreditation.

**Qualifications:** A doctorate and expertise in wood science or a closely related field, with demonstrated excellence in teaching and research, and qualifications necessary to hold a tenure-track position. Additional funding is included for administrative responsibilities. Rank and salary will be commensurate with qualifications and experience.

**Procedure:** Applicants should submit a letter describing their interest, qualifications, and administrative philosophy, along with a résumé and names of three references, including their addresses and telephone numbers. The application review will continue until a suitable candidate is selected. Send materials to Chair, Wood Science Coordinator Search Committee, School of Forestry and Wood Products, Michigan Technological University, 1400 Townsend Drive, Houghton, MI 49931-1295. For additional information visit our website at http://forestry.mtu.edu/iwr.

Michigan Technological University is an equal opportunity educational institution/equal opportunity employer.

**Bullard Fellowships in Forest Research, Harvard University**

Each year, Harvard University awards a limited number of Bullard Fellowships to individuals in biological, social, physical, and political sciences to promote advanced study, research, or integration of subjects pertaining to forested ecosystems. The fellowships, which include stipends up to $30,000, are intended to provide individuals in midcareer with an opportunity to utilize the resources and to interact with personnel in any department within Harvard University in order to develop their own scientific and professional growth. In recent years, Bullard Fellows have been associated with the Harvard Forest, Department of Organismic and Evolutionary Biology, and the J.F. Kennedy School of Government and have worked in areas of ecology, forest management.
policy, and conservation. Fellowships are available for periods ranging from four months to one year and can begin at any time in the year. Fellowships are not intended for graduate students or recent postdoctoral candidates. Further information may be obtained from Committee on the Charles Bullard Fund for Forest Research, Harvard University, Harvard Forest, PO Box 68, Petersham, MA 01366. Annual deadline for applications is February 1.

Applications from international scientists, women, and minorities are encouraged.
