**Positions Available**

Assistant Professor of Forestry (Silviculture), University of Florida, North Florida Research and Education Center (NFREC), Quincy, Florida

This 12-month, tenure-track faculty position (School of Forest Resources and Conservation) will be 70% extension and 30% research. Duties include providing leadership and direct assistance to county faculty in carrying out effective extension education programs with emphasis on the north Florida area, but assisting in statewide programs where appropriate; developing an innovative research program with strong extramural funding addressing the needs of private forestland managers of northern Florida in the area of forest management; and participating in graduate education.

Qualifications include: An earned PhD in forestry or a closely related field and demonstrated skills in verbal and written communications, interpersonal relationships, and procurement of extramural funding. Salary is commensurate with qualifications and experience.

Application procedures include a letter with a statement of interest, curriculum vitae, university transcripts, and names of references. For a complete job description and additional information about the position, the Research Center, and the University, visit the NFREC website (nfrec.ifas.ufl.edu) or write, call, fax, or e-mail Dr. Stephen Olson, Chair, Search Committee, North Florida Research and Education Center, 30 Research Road, Quincy, FL 32351; (850) 875-7144; fax (850) 875-7148; e-mail: smo@gnv.ifas.ufl.edu. Nominations are invited and minority and women applications are encouraged. Deadline for nominations is June 15, 2000; deadline for applications is July 15, 2000.

**UF is an affirmative action/equal opportunity employer.**

Assistant Professor, Hydrology of Forest Watersheds

Tenure-track, assistant professor position available. Responsibilities include development of a research program focusing on the hydrology of forested watersheds and teaching of one senior-level forest hydrology course and at least one graduate course in the candidate’s area of specialty. Earned doctoral degree, refereed publications, and a demonstrated interest in teaching are required.

Closing date for applications is August 1, 2000, or until a suitable candidate is found. For a copy of the position description and application materials, contact Molly Stock, Chair, Search Committee, Department of Forest Resources, University of Idaho, Moscow, ID 83844-1133; (208) 885-7611; fax (208) 885-6226; e-mail: fores@uidaho.edu; or see www.itx.uidaho.edu/forres/watershed.html.

Applications should include a letter summarizing interest and qualification for the position, curriculum vitae, university transcripts, and names and contact information for three references.

UI is an EEO/AA employer.

**Assistant Professor of Forest Resource Management**

The Department of Forestry at Michigan State University is seeking applicants for a full-time (12-month), tenure-track, assistant professor of forestry position with a specialization in forest management (60% research, 40% teaching). The position carries a joint appointment (25%) in the Department of Geography and will serve as forestry department liaison with the Center for Remote Sensing and Geographic Information Science, as well as the GIS-user community on campus. The successful applicant will be expected to build a nationally recognized scholarly research program in the field of forest management, as demonstrated by research...
Faculty Position, Department of Forestry
Mississippi State University Extension Service

Position: Assistant, associate, or full specialist, forestry extension. Rank commensurate with qualifications and experience. This is a full-time, continuing, 12-month, non-tenure-track faculty position.

Location: North Mississippi Research and Extension Center, Verona, Mississippi (just south of Tupelo, Mississippi).

Function: To participate in the department's forestry extension program in northeast Mississippi.

Responsibilities: Under the general direction of the head, department of forestry, and in collaboration with the forestry extension program leader, the specialist is responsible for planning and implementing a comprehensive, science-based forestry extension program to meet the educational needs of targeted audiences in the assignment area. The opportunity exists for the specialist to be assigned statewide responsibility for subject matter programming in the individual's area of expertise. The primary role of the specialist is to work closely with county extension agents, local county forestry associations, and state and federal agencies to serve the needs of various forestry client groups in the assigned area. The specialist will collaborate with the specialists, scientists, and head of the North Mississippi Research and Extension Center on matters of mutual interest. Program methods and techniques will include short courses, workshops, field days, demonstrations, mass media, publications, in-service training, and individual contacts. Audiences and cooperators will include landowners, natural resources professionals, business and industry officials, members of public and private organizations, 4-H youth, and the general public.

Salary: Commensurate with qualifications and experience.

Requirements: A PhD in forestry or a closely related field with at least one degree in forestry from an accredited professional forestry school. Emphasis will be placed on related experience, a demonstrated knowledge of forestry, excellence in oral and written communications, and interpersonal skills.

Starting date: July 1, 2000, or as soon as possible after an offer of employment.

Application: The application should include a letter of application; a résumé including the names and addresses, phone and fax numbers, and e-mail addresses of four professional references; and transcripts covering all academic work.

Closing date: June 15, 2000, or until the position is filled.

Mississippi State, MS 39762

Mississippi State University is an affirmative action/equal opportunity employer.

grants, publications in leading refereed journals, and graduate student recruitment and training at both the MSc and PhD levels. Initial teaching duties will include an introductory course, the senior-level course in forest management, and development of an applications-based graduate course on the use of GIS in the management of forest resources. A PhD in forest management, natural resource management, or a related field, and experience with GIS are required. Preference will be given to candidates with a BS degree in forestry from an accredited forestry curriculum. Postdoctoral experience, a demonstrated record of success in soliciting research grants, experience in remote sensing applications, teaching experience, and publication in leading refereed journals are desirable.

Applications will be accepted until July 31, 2000, or until the position is filled. Michigan State University is committed to building a diverse faculty, so candidates from underrepresented groups are especially encouraged to apply. A complete application will consist of a letter of intent, curriculum vitae, and four letters of reference. Send applications to Melvin R. Koelling, Chair, Forest Management Search Committee, Department of Forestry, Michigan State University, East Lansing, MI 48824-1222. Inquiries can be directed to the search committee chair at (517) 355-0096 or by e-mail: koelling@msu.edu.

Extension Forester and Staff Chair, Clatsop and Tillamook Counties
Oregon State University Extension Service is recruiting for an extension forester (75%) for Clatsop (Astoria) and Tillamook Counties and staff chair (25%) for Clatsop County at the rank of assistant or associate professor. Will organize, conduct, teach, and evaluate workshops, tours, Tree School days, demonstrations, and other educational events for the area forestry community that emphasize the development and application of plans and strategies to accomplish client and societal objectives. Priority clients include woodlot owners and managers, loggers and forest operators, forest products firms, conservation groups, public and private professional foresters, policymakers and community leaders, general public, and youth. Provide leadership for the overall extension program in Clatsop County and for administration of the Clatsop County extension office. Duties include developing and managing a budget for the Clatsop County Extension Service District and hiring and evaluating faculty and staff. Master's degree required, with at least one degree in forestry or closely related field. Coursework or experience in multisource forest management and natural resource policy issues desired. Application deadline is June 30, 2000.

For a detailed position description with application procedures, contact the Extension Service Operations Center, Oregon State University, 108 Ballard Extension Hall, Corvallis, OR 97331-3602; (541) 737-3991; fax (541) 737-4905; or visit our website at http://osu.orst.edu/extension.

The OSU Extension Service is an affirmative action/equal opportunity employer.

Assistant Cooperative Extension Specialist in Forestry/Fire Management, University of California, Berkeley
Applications are invited for an 11-month, career-track position as an assistant cooperative extension specialist in forestry and fire management starting November 1, 2000, at the University of California, Berkeley. PhD with expertise in forest management, fire management, silviculture, restoration ecology, or fire ecology is preferred for appointment.

Responsibilities will include coordination of an applied forestry and fire research program, extension of results to a diverse group of clients and colleagues, and linking of campus-based faculty with diverse clients and county extension staff. Applicant must show the ability to communicate to a diverse audience through both written and spoken means, and a capacity to develop a high-quality applied research program centered on forest fire and fire management.

For further information, including a full position description, contact Chair, Extension Forestry/Fire Management Search Committee, Division of Forest Sciences, Environmental Science, Policy, and Management, 145 Mulford Hall, University of California,
The University of California is an equal opportunity affirmative action employer.

District Extension Specialist, Natural Resources and Environmental Management, Ohio State University Extension

Two 12-month, tenure-track faculty positions. Northeast District (18 counties) headquartered in Wooster, Ohio, and South District (16 counties) headquartered in Jackson, Ohio. Provide leadership in developing a comprehensive extension educational program relevant to current and future issues related to soil, water, forest, and wildlife resources of the district. Work with extension agents in conducting workshops, programs, conferences, and field days, and in preparing educational materials for a variety of clientele groups. Must have exceptional oral and written communications skills; teaching (formal or nonformal) experience highly desired.

Salary: Commensurate with credentials and experience.

For application procedures and detailed position descriptions, see http://personnel.ag.osu.edu, or contact Dr. Eric Norland, Leader, Natural Resources, Ohio State University Extension, 2021 Coffey Road, Columbus, OH 43210-1085; (614) 292-6544; e-mail: norland.1@osu.edu.

Deputy Director, American Tree Farm System, American Forest Foundation, Washington, DC

The American Tree Farm System, America's oldest and largest forest conservation, education, and certification program for private forest landowners, is seeking candidates to fill its newly created position of deputy director. This person will be responsible for the internal operations of the program, including but not limited to certification training, state committee and stakeholder relations, field certification quality oversight, database management, and volunteer recruitment.

In addition, the deputy director, working with the staff of the American Tree Farm System, will be responsible for the efficient operation of Tree Farm's conservation partnerships by working as liaison between Tree Farm and conservation organizations and expanding and overseeing successful field implementation of existing partnership programs.

A strong candidate will possess a BS in forest resource management or related natural resource discipline from a recognized SAF college or university and have seven to 10 years professional experience in progressively responsible positions, some of which must have involved activities with private nonindustrial forestland owners. Experience and participation in the American Tree Farm Program is a plus. Additionally, candidate must possess outstanding communications skills and be comfortable speaking in front of large groups.

This senior position, based in Washington, DC, involves substantial travel, the ability to complete multiple tasks without direct supervision, and the stature to represent the American Tree Farm Program and American Forest Foundation before local, state, and national leaders.

Please contact the Human Resources Department, American Forest Foundation, 1111 19th Street NW, Suite 780, Washington, DC 20036; fax (202) 463-2461.

Temporary Paraprofessional, Oklahoma State University, Department of Forestry, Two Positions

Salary/benefits: $7 to $12 per hour.

Location: Department of Forestry, Oklahoma State University, Stillwater, Oklahoma, and fieldwork in western Arkansas and eastern Oklahoma on the Ozark and Ouachita National Forests.

Temporary, full-time.

Qualifications: Crew leader position requires BS degree in forestry with field experience preferred. Crew member position requires some forestry academic background or experience with two academic years toward a BS or associate degree in forestry preferred. Salary for both positions during employment period $9 to $12 per hour, depending on education and experience.

Duties: Two positions, working crew leader and crew member in a field crew responsible for remeasurement of permanent plots established as part of a shortleaf pine growth-and-yield study. Plots are...
Postdoctoral Research in Forest Sector Analysis

The USDA Forest Products Laboratory seeks applications for a two-year postdoctoral position. Duties include evaluating supply of short rotation woody crops for the pulp and paper industry, and evaluating carbon sequestration in wood and paper products.

Qualifications include a PhD in forest economics, agricultural economics, operations research, or closely related fields with a sound understanding of forest or agricultural sector market modeling, and mathematical programming.

Send letter of application, résumé, transcripts, and three letters of reference to Dr. Ken Skog, Timber Demand and Technology Assessment Research, USDA Forest Products Laboratory, One Gifford Pinchot Drive, Madison, WI 53705. Closing date is June 23, 2000. For more information, contact Ken Skog (608) 231-9360; e-mail: kskog@fs.fed.us. USDA is an equal opportunity provider and employer.

Tree and Shrub Care Positions
