H26  MANAGEMENT OF LOW BACK PAIN AND RADICULAR PAIN: TOWARDS A BETTER FUTURE

Paul Wilkinson
Pain Management, Royal Victoria Infirmary, Newcastle upon Tyne, UK

There are often conflicting and sometimes competing views about the management of persistent back and radicular pain. Dr Wilkinson will highlight some of the commonalities within various existing care pathways and select some key issues for discussion. He will highlight the significance of decision-making in pathway design and the implications for cost and quality of patient care. He will then focus on the rehabilitation of people with chronic pain, focusing on key developments in care in recent years.
