Erratum

Complete Sequence, Gene Arrangement, and Genetic Code of Mitochondrial DNA of the Cephalochordate Branchiostoma floridanae (Amphioxus)

Jeffrey L. Boore, L. Lynne Daehler, and Wesley M. Brown

Molecular Biology and Evolution 16(3):410–418

The final sentence in the Materials and Methods section on page 410

“Ribosomal RNA genes were identified by their potential to form tRNA-like secondary structures; specific identifications were made according to anticodon sequence.”

should read

“Ribosomal RNA genes were identified by sequence similarity and potential secondary structures. As a class, tRNA genes were identified by their potential to form tRNA-like secondary structures; specific identifications were made according to anticodon sequence.”
