Actinolite, 201
Adamellite, 489, 491
Aeromagnetic survey, 201
Africa
  margins, 102, 106
  north, 120
  South, 289, 290
  Tunisia, 104
African rift, 161, 163
African rift zone, 104
Alaska
  Aleutian arc, 102
  Blashke Islands ultramafic complex, 322
  continental margin and Mesozoic eugeosynclines, 75–85
  Duke Island ultramafic complex, 322
  Shumagin-Kodiak continental margin, 75–85
  ultramafic complexes in southeastern, 327
  Union Bay ultramafic complex, 322
Alaska Peninsula, 77, 102
  eugeosynclinal sequence, 75–85
A layer, 57, 58, 63, 65
  A'' layer, 57, 58, 63, 65
  correlatives, 57, 58
Albian, 61
Albite, 201, 535–552
Albitite, 489, 491, 499
  formation of, 491
Alderton interglaciation, 574
Aleutian arc, 102
Algeria, northern, 104
Alkali basalts, origin of, 253
Alkaline pyroxenites, zoning, 330
Alkaline ultrabasic rocks, 255
Allard Lake, Quebec, 141, 147
Alpine-Himalayan belt, 106
Alpine ophiolite, 225, 226, 235, 236
Alpine orogenic cycle, 119–132
Alteration, 573, 578, 580, 581
Alumina, 624
Aluminum in chlorite, 492, 493
Americas Plate, 369, 370, 379–382
Amisk series, 156
Amisk-type rocks, 149, 152, 153, 155–157
Amphibolites, Paraguachi, 429
Amphibolitic rocks, 429–433
Andalusite, 465–467, 471
Andaman arc, 104
Andes, 102, 104
  Perijá, 374, 378
  research project data, 450–451, 454
  Venezuelan, 369, 371, 374, 378, 380, 449–462, 465
Andesites, origin of, 317, 326, 330
Andesitic magmas, 531
Anorthosite, 141, 142, 146, 147, 197
  gabbro, 198
Anorthositic series, 477–487
  chemical variations in, 478–484
  comagmatic with quartz mangerite, 477, 479, 486
  differentiates of gabbroic anorthosite, 477–487
  independent of quartz mangerite, 477, 479–487
Antarctic, west, 104
Antillean Ridge, 63–65
Antimano Formation, Venezuela, 433
Appalachian Range, 490
Appalachian region, 489, 490
Aragua, central, 492, 493
Archaean rocks, 149, 156, 157
Argille scagliose, 422
Asbestos (town), 626
Aseismic ridges, 7, 10
Assam arc, 104
Asthenosphere, 36, 39
  currents, 7, 8, 20
Astrobleme, 606, 615, 616, 619
Atlantic Ocean, 57, 626. *See also* North Atlantic; Reykjanes Ridge
  equatorial, 241
  opening pole in early Mesozoic, 29, 30
  Proto-Atlantic, 168
  Vema fracture zone, 254
