

# Toolbox: Medication adherence resources for patients and clinicians

Justin Jones, PharmD Candidate

College of Pharmacy, Nursing and Allied Sciences  
North Dakota State University, Fargo, ND

## KEYWORDS

Medication adherence, resources, toolbox

Medication adherence is one of the most variable and amendable factors impacting the success of pharmacotherapy. This toolbox provides important resources used to evaluate and improve patient adherence. Many of the tools provided may be administered by a practitioner or applied by the patient themselves to better manage medication regimens and improve health outcomes.
