Errata

RE: “PREVALENCE OF POSTTRAUMATIC STRESS DISORDER IN PRISONERS”

In the article “Prevalence of Posttraumatic Stress Disorder in Prisoners” by Baranyi et al. (1), there was an error in the version of the corrected proof that published online ahead of print. In the tenth sentence of the abstract, the number of smaller studies was listed as “n < 100.” The correct number is n ≤ 200. This has been updated in the print and online versions of the article. The authors regret this error.

RE: “THE HEALTH OF AMERICA’S AGING PRISON POPULATION”

In the article “The Health of America’s Aging Prison Population” by Skarupski et al. (1), a government copyright line was included instead of a standard copyright line in the version that published online ahead of print. In addition, one of Gabriel B. Eber’s affiliations was omitted. His affiliations should have included the National Prison Project of the American Civil Liberties Foundation, Washington, DC. These issues have been corrected in the print and online versions of the article.

The authors regret these errors.
