## Contents

Preface ................................................................. v

1. Introduction; Tectonic setting along the margin of the Cretaceous Western Interior Seaway, southwestern Utah and northern Arizona ............... 1
   Jeffrey G. Eaton and J. Dale Nations

2. Tectonic influence on sedimentation in the southern Sevier foreland, Iron Springs Formation (Upper Cretaceous), southwestern Utah .......... 9
   Robert P. Fillmore

3. Braided stream deposition and provenance of the Upper Cretaceous–Paleocene (?) Canaan Peak Formation, Sevier foreland basin, southwestern Utah .... 27
   James G. Schmitt, David A. Jones, and Patrick M. Goldstrand

4. Biostratigraphic framework for the Upper Cretaceous rocks of the Kaiparowits Plateau, southern Utah .......................... 47
   Jeffrey G. Eaton

5. Depositional environments, palynology, and age of the Dakota Formation, south-central Utah ................................. 65
   Barbara A. am Ende

6. Lithostratigraphic and biostratigraphic framework for the Mancos Shale (Late Cenomanian to Middle Turonian) at Black Mesa, northeastern Arizona .... 85
   James Ian Kirkland

7. Molluscan paleoecology and sedimentation patterns of the Cenomanian-Turonian extinction interval in the southern Colorado Plateau region ....... 113
   William P. Elder

8. Paleoceanographic and paleoclimatic interpretations of the Mancos Shale (Upper Cretaceous), Black Mesa Basin, Arizona .................. 139
   R. Mark Leckie, Maxine G. Schmidt, David Finkelstein, and Richard Yuretich

9. Foraminiferal biostratigraphy and paleoecology of the Mancos Shale (Upper Cretaceous), southwestern Black Mesa, Arizona .............. 153
   James Olesen

10. Facies and depositional environments of the coal-bearing upper carbonaceous member of the Wepo Formation (Upper Cretaceous), northeastern Black Mesa, Arizona ........... 167
    David A. Carr

11. Heterogeneity of Upper Cretaceous Gallup sandstone regressive facies, Gallup Sag, New Mexico ........................................ 189
    Romeo M. Flores, John C. Hohman, and Frank G. Ethridge

Index ................................................................. 211
