

Texas Heart Institute Medal and the Ray C. Fish Award for Scientific Achievement in Cardiovascular Diseases

Ray C. Fish (1902–1962) was a leading figure in Houston’s natural gas industry and a philanthropist. He believed in the American dream of “opportunity for success.” The Ray C. Fish Foundation was established so that others might be encouraged to broaden man’s self-knowledge and to keep the American dream alive. After its founder’s death from heart disease, the Fish Foundation granted \$5 million to make the Texas Heart Institute a reality. For this reason, the Institute’s highest professional award is given in honor of this extraordinary man. The award recognizes those whose innovations have made significant contributions to cardiovascular medicine and surgery.

The first Texas Heart Institute Medal and Ray C. Fish Award for Scientific Achievement in Cardiovascular Diseases were presented in 1972 to Dr. Norman Shumway.

Since 1972, 36 other highly deserving recipients have been so honored by the Institute. The complete Roll of Recipients appears on the next page.

David A. Ott, MD

David A. Ott, MD

The 2016 Fish Award recipient is David A. Ott, MD, recognized for his knowledge and exceptional technical expertise as a cardiovascular surgeon in both congenital and acquired cardiovascular disease. Chosen personally by Dr. Denton Cooley in 2016 as his successor, Dr. Ott serves as Surgeon-in-Chief of the Texas Heart Institute.

A 1968 Phi Beta Kappa graduate (with honors) of the University of Texas, Dr. Ott earned his medical degree in 1972 from Baylor College of Medicine (BCM) and was elected to the Alpha Omega Alpha Honor Medical Society. He completed his residency in general surgery at BCM-affiliated hospitals (1976) and in cardiothoracic surgery at THI (1978), after which he was immediately welcomed to THI’s professional staff. Dr. Ott also served in the U.S. Army Reserve (1972–1978).

For more than 38 years, Dr. Ott’s career has been centered exclusively in the Texas Medical Center—at Texas Children’s Hospital in his early years and continuously at Baylor St. Luke’s Medical Center. A prominent leader, he is Clinical Professor of Surgery at BCM and the University of Texas Health Science Center at Houston. Dr. Ott is a member of the American College of Surgeons, the American Association for Thoracic Surgery, and the Society of Thoracic Surgeons. He is an author of more than 160 peer-reviewed papers and book chapters, serves on multiple advisory and editorial boards, and has won numerous awards.
