Editorials

675 Searching for the determinants of intestinal calcium absorption. RJ Wood
See corresponding article on page 758.

677 Iron treatment and human intestinal Caco-2 cells. J Beard
See corresponding article on page 770.

679 Provocative relation between soy and bone maintenance. JW Erdman Jr, RJ Stillman,
and RA Boileau
See corresponding article on page 844.

Review Article

681 Dairy foods and bone health: examination of the evidence. RL Weinsier
and CL Krumdieck

Original Research Communications

Obesity and eating disorders

690 Decreased bioavailability of vitamin D in obesity. J Wortsman, LY Matsuoka, TC Chen,
Z Lu, and MF Holick

694 Healthy percentage body fat ranges: an approach for developing guidelines based on
body mass index. D Gallagher, SB Heymsfield, M Heo, SA Jebb, PR Murgatroyd,
and Y Sakamoto

702 Why are nutritionally stunted children at increased risk of obesity? Studies of metabolic
rate and fat oxidation in shantytown children from São Paulo, Brazil. DJ Hoffman,
AL Sawaya, I Verreschi, KL Tucker, and SB Roberts

708 Dietary restriction and walking reduce fat deposition in the midthigh in obese older
women. AS Ryan, BJ Nicklas, DM Berman, and KE Dennis

Lipids and cardiovascular risk

714 Supplementation of postmenopausal women with fish oil rich in eicosapentaenoic acid
and docosahexaenoic acid is not associated with greater in vivo lipid peroxidation
compared with oils rich in oleate and linoleate as assessed by plasma malondialdehyde
and F2-isoprostanes. JV Higdon, J Liu, S-H Du, JD Morrow, BN Ames, and RC Wander

723 Elevated plasma fatty acid concentrations stimulate the cardiac autonomic nervous
system in healthy subjects. G Paolisso, D Manzella, MR Rizzo, E Ragno, M Barbieri,
G Varricchio, and M Varricchio

731 Oxidation of plasma proteins is not increased after supplementation with
eicosapentaenoic and docosahexaenoic acids. RC Wander and S-H Du

Vitamins, minerals, and phytochemicals

738 Efficacy of a vitamin A–fortified wheat-flour bun on the vitamin A status of Filipino
schoolchildren. FS Solon, RDW Klemm, L Sanchez, I Darnton-Hill, NE Craft, P Christian,
and KP West Jr

745 Effect of withdrawal of calcium and vitamin D supplements on bone mass in elderly men
and women. B Dawson-Hughes, SS Harris, EA Krall, and GE Dallal

751 Assessment of vitamin B-12, folate, and vitamin B-6 status and relation to sulfur amino
acid metabolism in neonates. J-C Minet, E Bissé, C-P Aebischer, A Beil, H Wieland,
and J Lütschg

758 Dietary protein and phosphorus do not affect calcium absorption. RP Heaney
See corresponding editorial on page 675.

762 Signs of impaired cognitive function in adolescents with marginal cobalamin status.
MWJ Louwman, M van Dusseldorp, FJR van de Vijver, CMG Thomas, J Schneede,
PM Ueland, H Refsum, and WA van Staveren

### Pregnancy and lactation
| 780 | Multifrequency bioelectrical impedance analysis in women with a normal and hypertensive pregnancy. H Valensise, A Andreoli, S Lello, F Magnani, C Romanini, and A De Lorenzo |

### Digestion
| 784 | An unfermented gel component of psyllium seed husk promotes laxation as a lubricant in humans. JA Marlett, TM Kajs, and MH Fischer |

### Nutritional epidemiology and public health
| 790 | Response of glutamine metabolism to glutamine-supplemented parenteral nutrition. BAC van Acker, KWE Hulsewé, AJM Wagenmakers, MF von Meyenfeldt, and PB Soeters |
| 796 | Total-body skeletal muscle mass: development and cross-validation of anthropometric prediction models. RC Lee, Z Wang, M Heo, R Ross, I Janssen, and SB Heymsfield |

### Immunity
| 804 | Effects of sesamin-supplemented dietary fat emulsions on the ex vivo production of lipopolysaccharide-induced prostanoids and tumor necrosis factor α in rats. T Utsunomiya, SR Chavali, WW Zhong, and RA Forse |

### AIDS and other wasting syndromes
| 809 | Status of selected nutrients and progression of human immunodeficiency virus type 1 infection. JD Bogden, FW Kemp, S Han, W Li, K Bruening, T Denny, JM Oleske, J Lloyd, H Baker, G Perez, P Kloser, J Skurnick, and DB Louria |

### Aging
| 825 | Cognitive performance is associated with glucose regulation in healthy elderly persons and can be enhanced with glucose and dietary carbohydrates. RJ Kaplan, CE Greenwood, G Winocur, and TMS Wolever |

### Bone metabolism
| 837 | Influence of cognitive eating restraint on total-body measurements of bone mineral density and bone mineral content in premenopausal women aged 18–45 y: a cross-sectional study. MD Van Loan and NL Keim |
| 844 | Isoflavone-rich soy protein isolate attenuates bone loss in the lumbar spine of perimenopausal women. DL Alekel, A St Germain, CT Peterson, KB Hanson, JW Stewart, and T Toda. See corresponding editorial on page 679. |

### Letters to the Editor
| 853 | Olive oil: more than just oleic acid. F Visioli and C Galli |
| 853 | Fatty diets are unhealthy—even those based on monounsaturates. P Marckmann and A Astrup |
| 854 | Reply to P Marckmann. PM Kris-Etherton, CL Pelkman, G Zhao, TA Pearson, Y Wan, and TD Etherton |
| 856 | All cereals may not be equal. S Seely |
| 856 | Reply to S Seely. S Liu, JE Manson, and WC Willett |
Book Review

857  Nutrition and Immunity in Man, by Lillian Langseth. Reviewed by NW Solomons

Supplement: Advances in Nutrition Education for Medical Students

865S  Overview. WA Walker

877S  Enhancing nutrition education through faculty development: from workshops to Web sites. EG Armstrong and RG Koffman

882S  Integrating nutrition as a theme throughout the medical school curriculum. C Lo

890S  Development of a case-based integrated nutrition curriculum for medical students. LA Hark and G Morrison
