Fats and Oil Consumption in Health and Disease: Current Concepts and Controversies

959S Foreword. JL Breslow and D Trichopoulous

Welcome and introductions

960S Comments on symposium expectations. RS Rivlin

Overview lectures

961S Worldwide patterns of dietary lipids intake and health implications. A Trichopoulou and P Lagiou
965S Consistency between US dietary fat intake and serum total cholesterol concentrations: the National Health and Nutrition Examination Surveys. ND Ernst, CT Sempos, RR Briefer, and MB Clark
973S Overview lectures: discussion

Controversies related to dietary fat and human health

Should the amount of fat in the diet be reduced?

974S High-oil compared with low-fat, high-carbohydrate diets in the prevention of ischemic heart disease. MB Katan
980S It is more important to increase the intake of unsaturated fats than to decrease the intake of saturated fats: evidence from clinical trials relating to ischemic heart disease. MF Oliver
987S Controversies related to dietary fat and human health: discussion

What is the desirable ratio of saturated, polyunsaturated, and monounsaturated fatty acids in the diet?

988S What is the desirable ratio of saturated, polyunsaturated, and monounsaturated fatty acids in the diet? SM Grundy
991S Dietary fatty acids in the management of diabetes mellitus. EM Berry
998S Dietary fatty acids and cancer. DP Rose
1004S What is the desirable ratio of saturated, polyunsaturated, and monounsaturated fatty acids in the diet? Discussion

Are trans fatty acids a serious risk for disease?

1006S Health effects of trans fatty acids. A Ascherio and WC Willett
1011S Do trans fatty acids increase the risk of coronary artery disease? A critique of the epidemiologic evidence. S Shapiro
1018S Are trans fatty acids a serious risk for disease? Discussion

Are fish oils beneficial in disease prevention and treatment?

1020S Are fish oils beneficial in the prevention and treatment of coronary artery disease? SL Connor and WE Connor
1032S Are deficits of arachidonic and docosahexaenoic acids responsible for the neural and vascular complications of preterm babies? MA Crawford, K Costeloe, K Ghebremeskel, A Phylactos, L Skirvin, and F Stacey

1042S Are fish oils beneficial in disease prevention and treatment? Discussion

Should weight recommendations be modified for the middle aged?

1044S Obesity and mortality: a review of the epidemiologic data. CG Solomon and JE Manson

1051S Should weight recommendations be modified for the middle aged? Discussion

The Mediterranean diet: another look

1053S The Mediterranean diet: a view from history. B Haber

1058S The Mediterranean diet: another look: discussion

1059S Conference summary. D Trichopoulos
