The John Laragh Research Award of the American Journal of Hypertension will be bestowed annually to an exemplary basic, clinical, translational, epidemiology, population science or health systems researcher who is under 45 years of age at the time of the decision to award the prize. The award winner will have had outstanding research output to have made a significant impact on the field and will be judged by the American Journal of Hypertension editors.

To apply for the John Laragh Research Award, applicants will submit the below documents online on the Oxford University Press American Journal of Hypertension website. Please register and login as ‘author’ and submit through the John Laragh Research Award type.

Documents to submit:
- Curriculum vitae
- Documentation demonstrating their age
- Two to three page letter of application detailing their contributions
- Two letters of support from recognized prominent scientists in the field of hypertension or related research. One of the letters should be from someone who is not at the applicant’s institution.

The deadline for applications is December 1, 2018.

The award will consist of a plaque and an award of USD 5,000.

On receiving notice of the award, the awardee will be invited to submit a manuscript to the American Journal of Hypertension reviewing his or her work, following the instructions to authors for reviews on the journal website.
