EDITORIALS

Diastolic dysfunction and sepsis: the devil is in the detail
J. Poelaert 555

Readmission after surgery: are neuromuscular blocking drugs a cause?
M. Blobner, K. Ulm and J. M. Hunter 557

Beta-blockers in sepsis: time to reconsider current constraints?
E. C. Boerma and M. Singer 560

Age and inflammation after cardiac surgery
A. Hernandez and A. D. Shaw 562

Black swans: challenging the relationship of anaesthetic-induced unconsciousness and
electroencephalographic oscillations in the frontal cortex
G. A. Mashour and M. S. Avidan 563

Hierarchy in disruption of large-scale networks across altered arousal states
L. D. Lewis and O. Akeju 566

Fading whispers down the lane: signal propagation in anaesthetized cortical networks
G. A. Mashour and A. G. Hudetz 568

Speaking up: does anaesthetist gender influence teamwork and collaboration?
A. L. Garden and J. M. Weller 571

REVIEW ARTICLES

Human neural correlates of sevoflurane-induced unconsciousness
B. J. A. Palanca, M. S. Avidan and G. A. Mashour 573

Tissue Doppler assessment of diastolic function and relationship with mortality in critically ill septic
patients: a systematic review and meta-analysis
F. Sanfilippo, C. Corredor, A. Arcadipane, G. Landesberg, A. Vieillard-Baron, M. Ceconi and N. Fletcher 583

CLINICAL PRACTICE

Association between intraoperative non-depolarising neuromuscular blocking agent dose and 30-day
readmission after abdominal surgery
M. Elkermann and J. C. Schneider 595

Effects of intraoperative and early postoperative normal saline or Plasma-Lyte 148® on hyperkalaemia in
deceased donor renal transplantation: a double-blind randomized trial

CRITICAL CARE

Continuing chronic beta-blockade in the acute phase of severe sepsis and septic shock is associated with
decreased mortality rates up to 90 days
C. Fuchs, S. Waechtlikuhn, C. Scheer, M. Vollmer, K. Meissner, S.-O. Kuhn, K. Hahnenkamp, A. Morelli,
M. Gründling and S. Rehberg 616

Epidemiology of sepsis and septic shock in critical care units: comparison between sepsis-2 and sepsis-3
populations using a national critical care database
M. Shankar-Hari, D. A. Harrison, G. D. Rubenfeld and K. Rowan 626

Age and other perioperative risk factors for postoperative systemic inflammatory response syndrome after
cardiac surgery
J. M. Dieleman, L. M. Peelen, T. G. Coulson, L. Tran, C. M. Reid, J. A. Smith, P. S. Myles and D. Pilcher 637

Preadmission statin use improves the outcome of less severe sepsis patients - a population-based propensity
score matched cohort study
Taiwan University Hospital Health Economics and Outcome Research Group 645

Postoperative pulmonary complications, pulmonary and systemic inflammatory responses after lung
resection surgery with prolonged one-lung ventilation. Randomized controlled trial comparing intravenous
and inhalational anaesthesia
F. de la Gala, R. Pino, A. Reyes, E. Vara, L. Olmedilla, P. Cruz, I. Garutti and Contributors 655
## NEUROSCIENCES AND NEUROANAESTHESIA

Frontal alpha-delta EEG does not preclude volitional response during anaesthesia: prospective cohort study of the isolated forearm technique  
664

Brain functional connectivity differentiates dexmedetomidine from propofol and natural sleep  
674

Disruption of cortical network activity by the general anaesthetic isoflurane  
H. Hentschke, A. Raz, B. M. Krause, C. A. Murphy and M. I. Banks  
685

## QUALITY AND PATIENT SAFETY

Gender, power and leadership: the effect of a superior’s gender on respiratory therapists’ ability to challenge leadership during a life-threatening emergency  
697

## SPECIAL SECTION - PAIN MEDICINE

### EDITORIALS

Special section on pain: progress in pain assessment and management  
L. Colvin  
703

NeuPSIG: investing in solutions to the growing global challenge of neuropathic pain  
B. H. Smith and S. N. Raja  
705

Ultrasound-guided percutaneous cryoneurolysis for treatment of acute pain: could cryoanalgesia replace continuous peripheral nerve blocks?  
B. M. Ilfeld, R. A. Gabriel and A. M. Trescot  
709

Perioperative statins surgery and postoperative pain  
J. R. Sneyd, L. A. Colvin, M. O. Columb and T. Nightingale  
712

Monitoring nociception—getting ‘there yet’ might be easier with a road map  
T. Ledowski  
716

The dilemma of interventional pain trials: thinking beyond the box  
K. Poply and V. Mehta  
718

Guidelines for perioperative pain management: need for re-evaluation  
G. R. Joshi and H. Kehlet, on behalf of the PROSPECT Working Group  
720

### REVIEW ARTICLES

Pain in cancer survivors; filling in the gaps  
M. Brown and P. Farquhar-Smith  
723

Clinical and preclinical perspectives on Chemotherapy-Induced Peripheral Neuropathy (CIPN): a narrative review  
S. J. L. Flatters, P. M. Dougherty and L. A. Colvin  
737

Non-steroidal anti-inflammatory drugs in the oncological surgical population: beneficial or harmful?  
A systematic review of the literature  
J. P. Cata, C. E. Guerra, G. J. Chang, V. Gottumukkala and G. R. Joshi  
750

Neuropathic pain in cancer: systematic review, performance of screening tools and analysis of symptom profiles  
M. R. Mulvey, E. G. Boland, D. Bouhassira, R. Freynhagen, J. Hardy, M. J. Hjermstad, S. Mercadante, C. Pérez and M. I. Bennett  
765

Benefit and harm of pregabalin in acute pain treatment: a systematic review with meta-analyses and trial sequential analyses  
775
CLINICAL PRACTICE

Low-dose buprenorphine infusion to prevent postoperative hyperalgesia in patients undergoing major lung surgery and remifentanil infusion: a double-blind, randomized, active-controlled trial

Are perioperative therapeutic doses of statins associated with postoperative pain and opioid consumption after hip surgery under spinal anaesthesia?

Analgesia nociception index for the assessment of pain in critically ill patients: a diagnostic accuracy study

Prediction of persistent post-surgery pain by preoperative cold pain sensitivity: biomarker development with machine-learning-derived analysis
J. Lötsc, A. Uitsch and E. Kato

REGIONAL ANAESTHESIA

Pectoral nerve block1 versus modified pectoral nerve block2 for postoperative pain relief in patients undergoing modified radical mastectomy: a randomized clinical trial
S. Goswami, P. Kundra and J. Bhattacharyya
