Mission statement: The goal of *Neuro-Oncology* is to provide the international neuro-oncology community with high-quality, rapid publication of information in all fields. The journal welcomes submissions from throughout the world and encourages the participation of neuro-oncologists in a wide array of subspecialities. Areas covered include, but are not limited to, biochemistry and biophysics, clinical neuro-oncology, clinical therapy trials, epidemiology, imaging, immunology, medical neuro-oncology, neuropathology, molecular genetics, pediatric neuro-oncology, preclinical experimental therapeutics, retrospective clinical studies, surgical neuro-oncology, and tumor biology. Published by Oxford University Press, *Neuro-Oncology* is the official journal for the Society for Neuro-Oncology (SNO), the Japan Society for Neuro-Oncology, the European Association for Neuro-Oncology, and the World Federation of Neuro-Oncology Societies.
