

## **Corrigendum to: Stelma, G. (2018) Use of Bacterial Spores in Monitoring Water Quality and Treatment, Journal of Water and Health 16.4, 491-500**

The author wishes to inform readers that a reference cited in the article Stelma, G. (2018) Use of Bacterial Spores in Monitoring Water Quality and Treatment, Journal of Water and Health 16.4, 491-500 has been updated.

The reference in question is: 'ISO 2002 Water Quality Detection and enumeration of *Clostridium perfringens*. Part 2: Method by membrane filtration (revision of ISO 6461-2:1986). Committee draft ISO/CD 6461-2. International Organization for Standardization, Geneva.'

The corrected reference, submitted to the authors by Regina Sommer, convener of the ISO working group, is: 'ISO 2013 *Water Quality—Enumeration of Clostridium perfringens—Method using membrane filtration* (ISO 14189: 2013) International Organization for standardization, Geneva.'
